# Supplementary Material: Influence of Placental Abnormalities and Pregnancy-Induced Hypertension in Prematurity Associated with Various Assisted Reproductive Technology Techniques

Judy E. Stern, Chia-ling Liu, Sunah S. Hwang, Dmitry Dukhovny, Leslie V. Farland, Hafsatou Diop, Charles C. Coddington and Howard Cabral

**Table S1.** ICD 9 and 10 codes for maternal conditions, pregnancy risks and delivery complications.

Categories	Conditions	ICD-9 Code	ICD-10 Code
Maternal Conditions			
	Chronic diabetes	648.0, 250	E08, E09, E10, E11, E13 O24.0, O24.1, O24.3, O24.8
	Chronic Hypertension	401, 402, 403, 404, 405 642.0, 642.1, 642.2, 642.7	I10, I11, I12, I13, I14, I15, I16 O10, O11
Pregnancy Risks			
Pregnancy Induced Hypertension (PIH)	Pregnancy Hypertension	642.3, 642.9	O13, O16
	Preeclampsia/Eclampsia	6424, 6425, 6426	O11, O14, O15
	Gestational Diabetes	6488	O24.4, O24.9
	Uterine Bleeding	6413, 6418, 6419	O46, O67
Delivery Complications			
Placental abnormalities	Abruptio placentae	641.2, 762.1	O45, P02.1
	Placenta previa	641.0, 641.1	O44
	Vasa Previa	663.5	O69.4
	Placenta accreta	667.0	O43.21
	Rupture membrane premature (< 12 hours)	658.1, 761.1	P01.1
	Rupture membrane prolonged (> 24 hours)	658.2, 658.3	O42.1
