

Supplementary Figure S1. Sensitivity analysis by omitting the study one by one (outcome: ORR). A: original analysis; B: analysis when excluding one study

Supplementary Figure S2. Sensitivity analysis by omitting the study one by one (outcomes: PFS and OS). A: PFS; B: OS

Supplementary Figure S3. Funnel plot of the ORR (A), PFS (B) and OS (C) results.

Supplementary compressed package: Detailed results of subgroup analysis stratified by ICI types, cancer types, regional distribution, study design and site-specific irAEs.

Supplementary Table 1: additional characteristics of enrolled studies and results of organ-specific irAEs
