Dementia Advisor V. 1.0.5.609 (26.12)	2017-06-02 2019-02-05	Home page shows 7 different categories and their themes. The different themes are presented in the form of "text message" scenarios.	Not required to access content	According to the themes, 7 categories contain information for family caregivers: - Manage difficult behaviors; - Manage refusals; - Manage family tensions; - Not have time for oneself; - Make difficult decisions; - Manage work demands; - Access and manage services.	Each category leads to a predetermined conversation with a person with NCD. During the discussion, 2 response options are presented. Lessons/explanations are provided during and at the end of the scenario.
Dementia Emergency V. 1.2. (30.4)	2016-01-12 2016-02-26	Home page shows 5 main categories (icons at the bottom of the page). Home page also contains a tab with general tips (red icon in the center of the page).	Required to access content	According to the themes, 4 categories contain information for family caregivers: - Emergency; - Challenges; - Assistance; - General Information.	Each topic provides information in the form of lists and texts. It is best to read the "General Tips" section before starting to read the different categories because the app often refers to what was in this section.
