

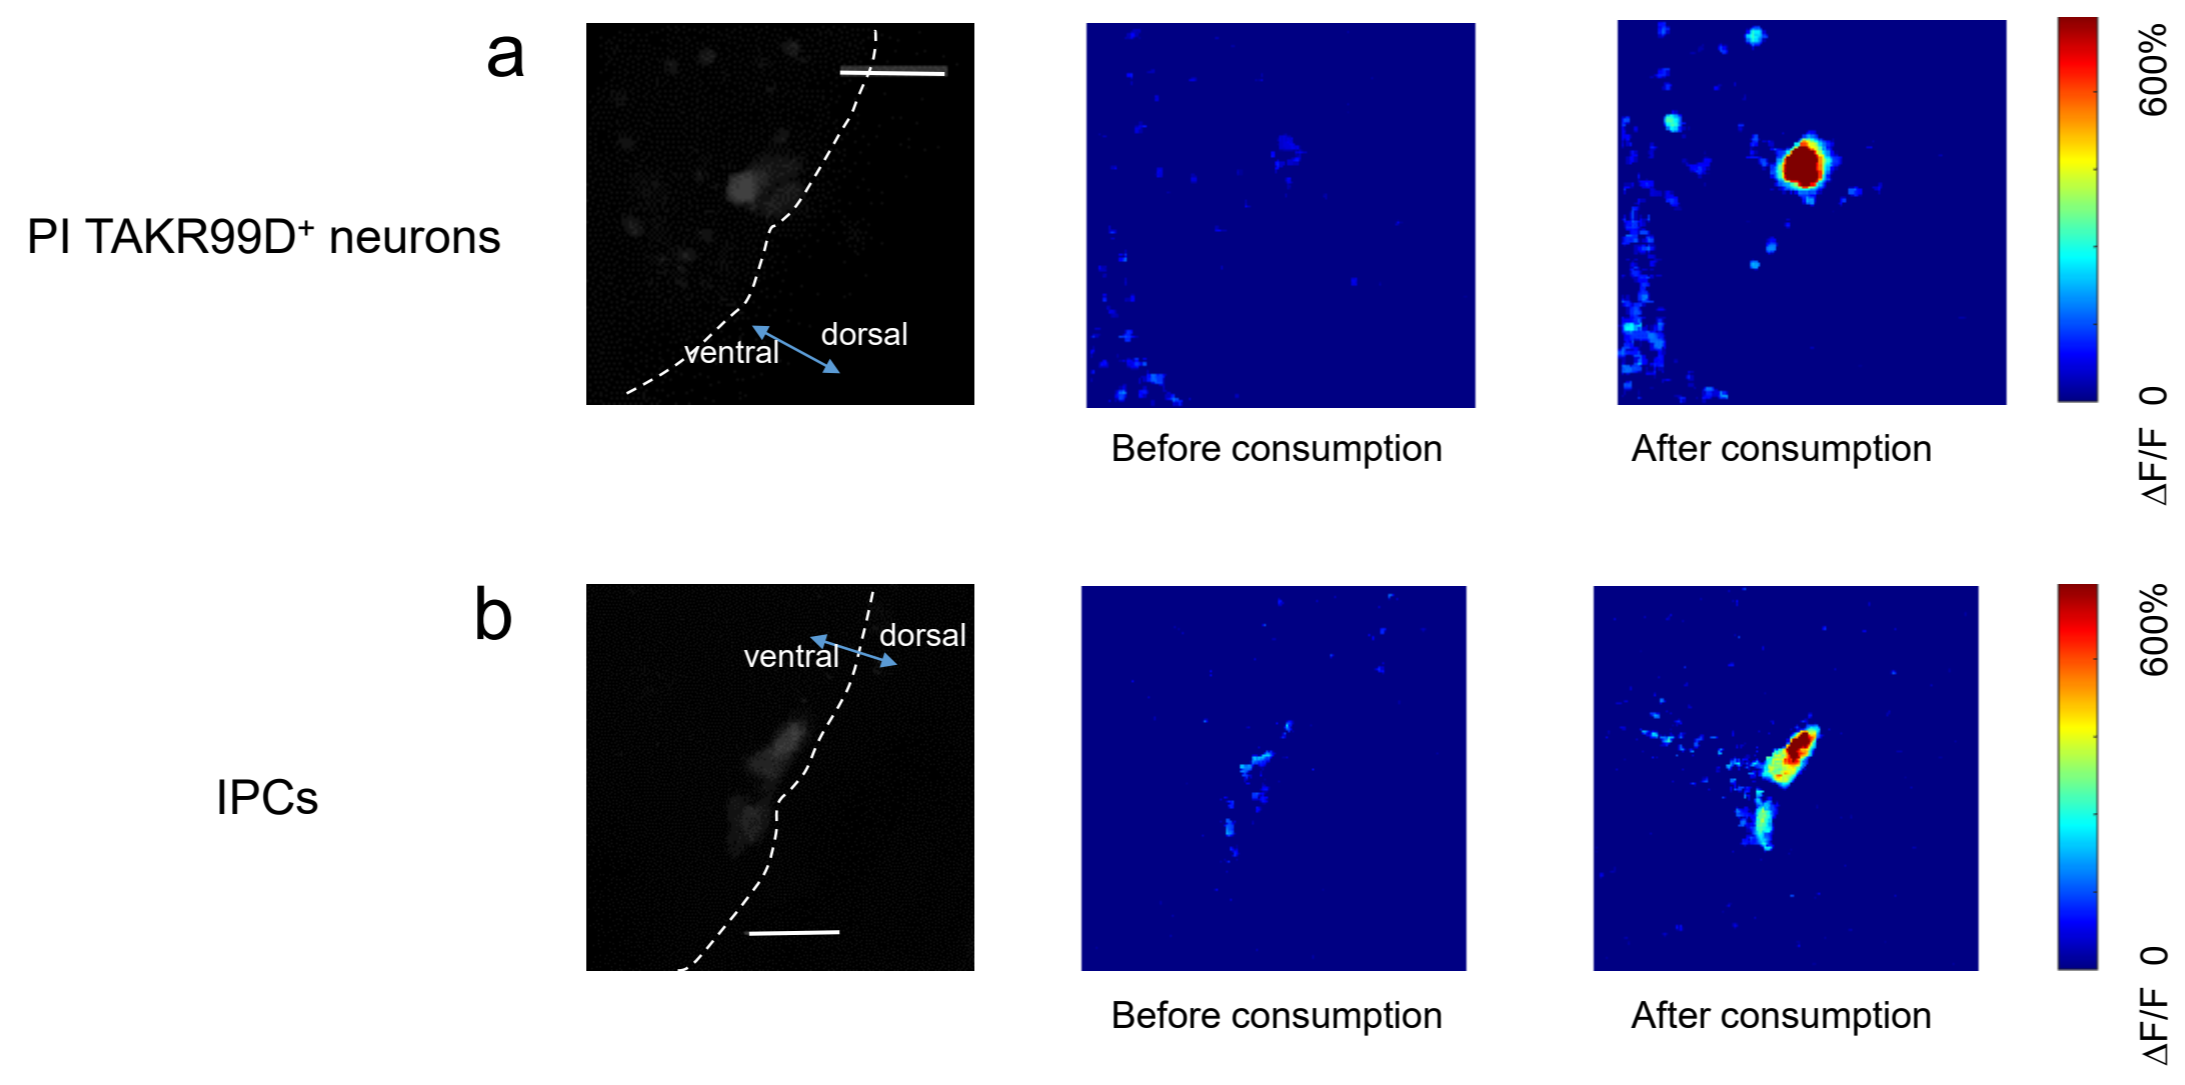

Fig S10

**Fig. S10 Calcium responses in TAKR99D<sup>+</sup> neurons and IPCs upon food ingestion.**

**a** The calcium responses of PI TAKR99D<sup>+</sup> neurons to the ingestion of D-glucose in the *in vivo* calcium imaging preparations ( $n = 10$ ). **b** The calcium responses of IPCs to the ingestion of D-glucose in the *in vivo* calcium imaging preparations ( $n = 12$ ).
