

Fig S6

**Fig. S6 DTK<sup>+</sup> neurons and IPCs do not have direct synaptic connections.** Schematic diagram of nSyb-GRASP between DTK<sup>+</sup> and IPCs (top). The absence of nSyb-GRASP signals between DTK<sup>+</sup> neurons and IPCs in the PI region and the AL region (red boxes) (left). In the control groups lacking either of the nSyb-GRASP component, no nSyb-GRASP signal was seen (right). Scale bar, 10  $\mu$ m.
