

Figure S4: Decreased lipid droplet accumulation in postnatal *Myf5^{Cre}Med1^{ff}* mice
H&E staining of postnatal (P0, P21, P26) BAT of *Myf5^{Cre}Med1^{f/w}* and *Myf5^{Cre}Med1^{ff}* mice. Decreased lipid droplet accumulation in postnatal *Myf5^{Cre}Med1^{ff}* BAT is observed. Bars indicate 100 μm.
