

Data Sharing Statement

Data

Data available: Yes

Data types: Other (please specify)

Additional Information: A de-identified patient data set can be made available to researchers upon reasonable request. The data will only be made available after submission of a project plan outlining the reason for the request and any proposed analyses, and will have to be approved by the NOR-DRUM steering group. Project proposals can be submitted to the corresponding author. Data sharing will have to follow appropriate regulations. The study protocol and statistical analysis plan are made available together with the paper (Online-Only Supplement).

How to access data: A de-identified patient data set can be made available to researchers upon reasonable request. The data will only be made available after submission of a project plan outlining the reason for the request and any proposed analyses, and will have to be approved by the NOR-DRUM steering group. Project proposals can be submitted to the corresponding author s.w.syversen@gmail.com. Data sharing will have to follow appropriate regulations. The study protocol and statistical analysis plan are made available together with the paper (Online-Only Supplement).

When available: With publication
