

Supplementary Figure S2: Loss of *Arid1a* or *Smarcb1* in the context of endogenous *Braf*^{V600E} expression promotes tumor growth in mice. (A) Thyroid volume calculated by 3D ultrasonography in 6- to 8-week-old mice ($X \pm \text{SEM}$; $n \geq 6$ per group; * $p \leq 0.05$; ** $p \leq 0.01$; *** $p \leq 0.001$; **** $p \leq 0.0001$, ns: not significant; unpaired two-tailed Student's *t*-test). (B) Quantification of Ki67 immunofluorescence staining from tumor sections of the indicated genotypes; $n \geq 4$ mice per group.
