Supplementary material

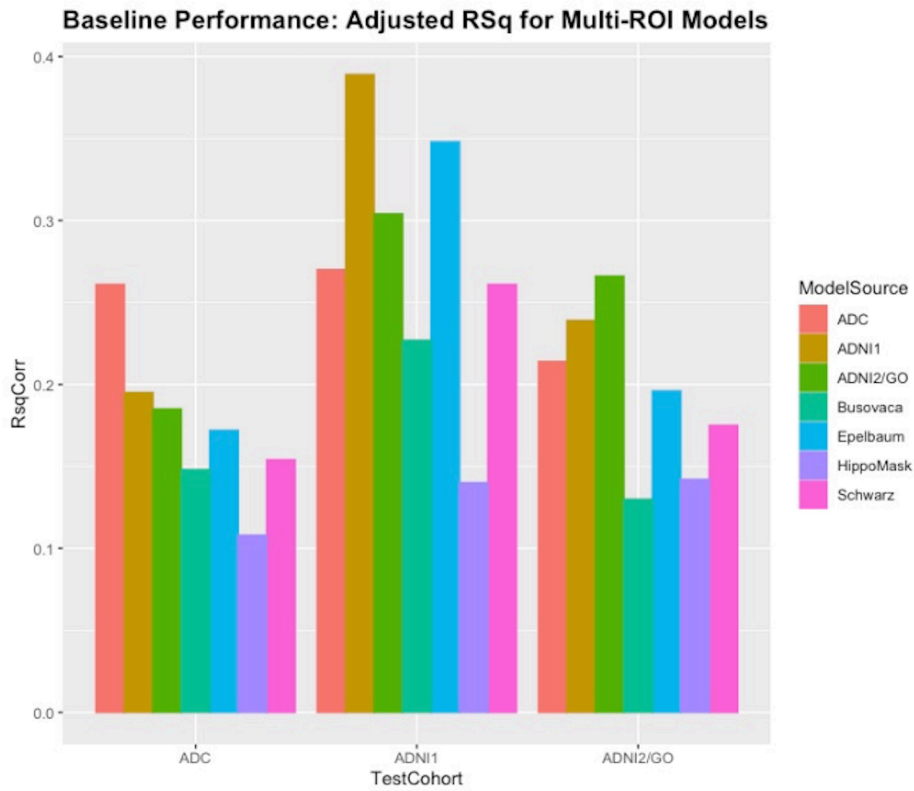

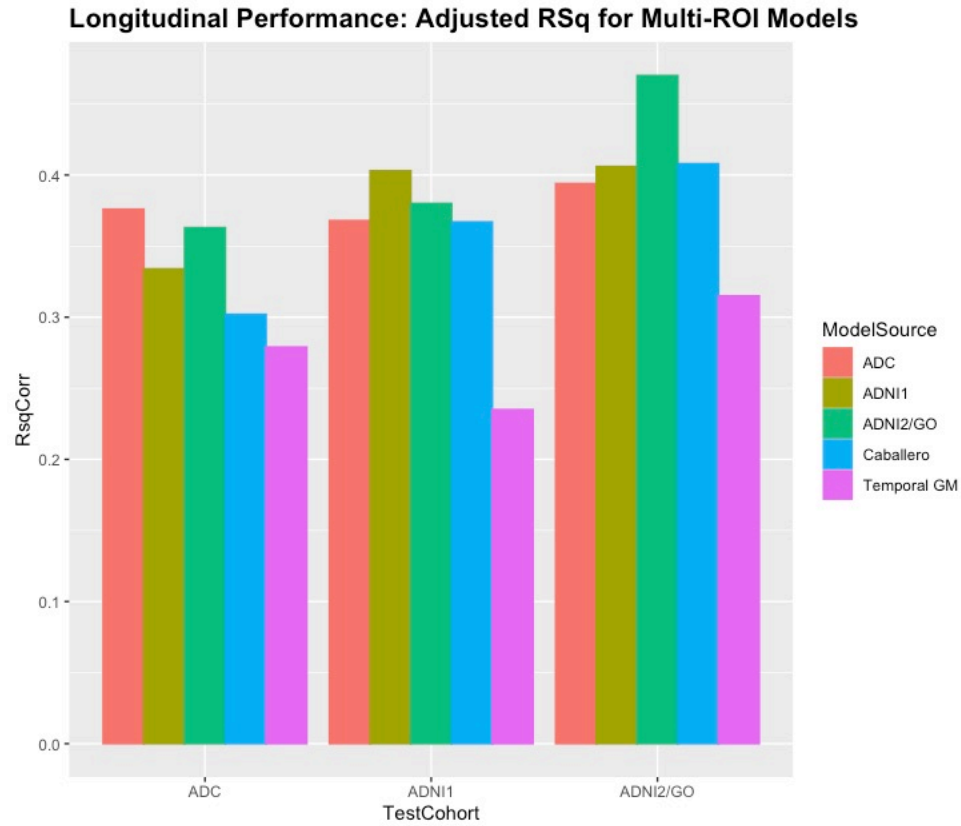

Figure S1A. Adjusted R^2 performance comparisons across models at baseline. Table provides number of ROIs and thus the number of independent variables in each regression model.

Model	Number of ROIs
ADC	5
ADNI 1	6
ADNI2/GO	6
Busovaca	8
Epelbaum	21
Schwarz	6
Hippo Mask	1

Figure S1B. Adjusted R^2 performance comparisons across longitudinal models. Table provides number of ROIs and thus the number of independent variables in each regression model.

Model	Number of ROIs
ADC	7
ADNI 1	9
ADNI2/GO	14
Caballero	12
Temporal GM	1
