

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tlcr-21-48	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We can share the tables and data generated for this manuscript, including the raw list of mutations and copy number variation.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes, we could share also statistics from the sequencing and any other related document.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists or scientists who are working on metastatic lung squamous carcinoma.
8	For what type of analysis or purpose?	For analysis to evaluate the relationship between primary LUSC and matched metastasis
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: lukas.bubendorf@usb.ch
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
