

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Individual patient demographics and HLA typing.xls

File Name: Supplementary Data 2

Description: Interactive unsupervised heatmaps of acute influenza+.html

File Name: Supplementary Data 3

Description: Interactive unsupervised heatmaps of convalescent influenza+.html

File Name: Supplementary Data 4

Description: Interactive unsupervised heatmaps of acute influenza-.html

File Name: Supplementary Data 5

Description: Interactive unsupervised heatmaps of convalescent influenza-.html

File Name: Supplementary Data 6

Description: Interactive unsupervised heatmaps of full influenza+ and influenza- cohort.html

File Name: Supplementary Data 7

Description: Patient sample used for each assay.xls

File Name: Supplementary Data 8

Description: Antibody panels used for flow cytometry.xls
