

Supplemental Figure S4: (A) Sth1 depletion by addition of doxycycline (+D) using Tet-off system causes UV sensitivity in yeast. (B,C) Analysis of dinucleotides associated with CPD-seq reads in WT-AA and Sth1-AA cells. (D-G) Replicates of Sth1-AA and *rsc2Δ* CPD-seq data. Original replicates are shown in Fig. 3G,H and Fig. 4A,B.
