

Data Sharing Statement

Martens. Effect of Continuous Glucose Monitoring on Glycemic Control in Patients With Type 2 Diabetes Treated With Basal Insulin. *JAMA*. Published June 02, 2021. doi:10.1001/jama.2021.7444

Data

Data available: Yes

Data types: Deidentified participant data

How to access data: A documented, de-identified dataset may be provided to other researchers upon submitting a request to the corresponding author that describes the data requested and the purpose for its use.

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: Researchers whose proposed use of the data has been approved.

Types of analyses: Purpose specified by author group.

Mechanisms of data availability: Without investigator support.
