

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tau-20-1378	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Clinicopathological data of patients, association of protein expression and microRNA expression data with clinical variables, as well as information on survival.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, can also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and urologist surgeons who are interested in our studies.
8	For what type of analysis or purpose?	This work aims to analyze miR-145 as a potential biomarker for penis cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: jackdpinho@mail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
