

Description of Additional Supplementary Files

File name: Supplementary Data

Description:

Supplementary Data 1: List of all the 119 pig brain samples included in the analysis.

Supplementary Data 2: Sequencing information of whole genome sequencing data

Supplementary Data 3a: List of conserved editing sites in Cerebral Cortex.

Supplementary Data 3b: List of conserved editing sites in Amygdala.

Supplementary Data 3c: List of conserved editing sites in Hippocampal formation.

Supplementary Data 3d: List of conserved editing sites in Hypothalamus.

Supplementary Data 3e: List of conserved editing sites in Cerebellum.

Supplementary Data 3f: List of conserved editing sites in Spinal Cord.

Supplementary Data 4: List of samples obtained from GTEx Portal.
