≥ 1 Copy of ApoE4 ^a	76	0.49	68	0.50	0.05	0.97

Note: Three respondents with ApoE data were excluded from analyses due to completing GARS-2 more ± 2 years since most previous study visit; this is why available ApoE data here for respondents might appear discrepant with Table 3. *CDR* = Clinical Dementia Rating. *MMSE* = Mini-Mental Status Exam. *NPI* = Neuropsychiatric Inventory.

^aApoE data available for 156 nonrespondents and 136 respondents.
