

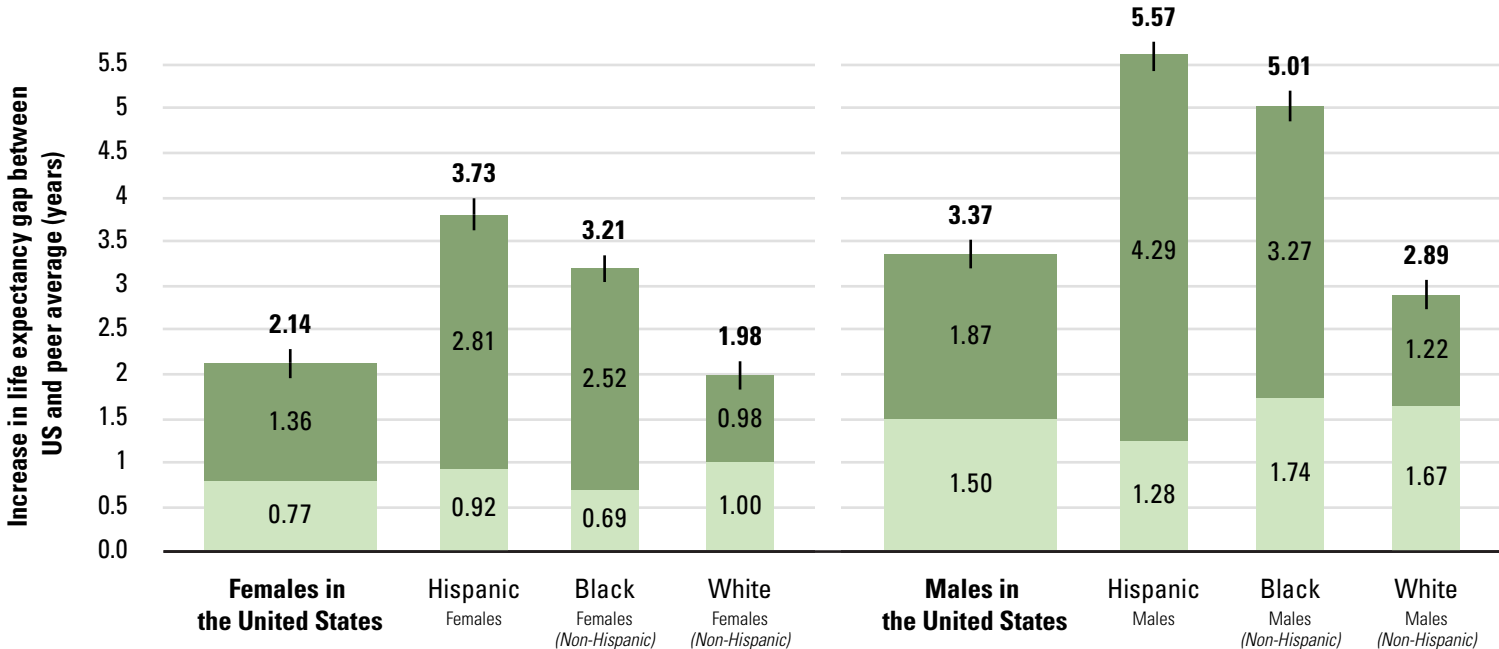

Figure 3. Increasing Gap in Life Expectancy Between the United States and Peer Country Average; 2010–2018 and 2018–2020

LEGEND | TIME PERIODS

2010 ← → 2018

2018 ← → 2020

For example, the gap between the life expectancy of US males and the average life expectancy of males in peer countries increased **1.50 years** in 2010-2018 and an additional **1.87 years** in 2018-2020.
