

Figure S2

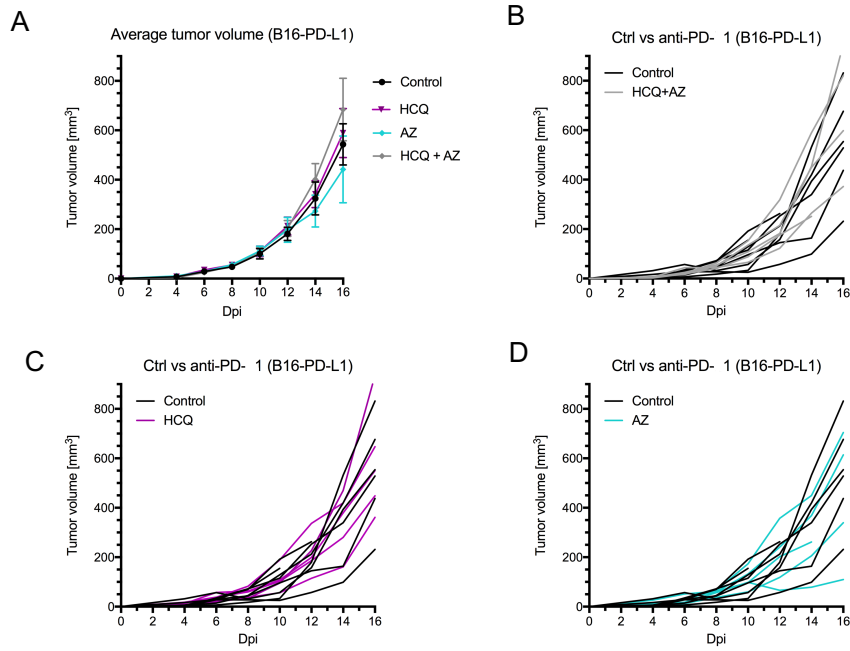

Figure S2: Spider graphs representing the effects of HCQ and AZ in control groups. C57BL/6 mice were implanted with B16 tumoral cells as described above in Figure 1.

Panel A: Tumor growths in control vs HCQ vs AZ vs HCQ + AZ.

Panel B: Spider graph representing control vs HCQ + AZ.

Panel C: Spider graph representing control vs HCQ.

Panel D: Spider graph representing control vs AZ.
