

**Supplementary materials ‘Systematic review on the use of patient-reported outcome measures in brain tumor studies: part of the Response Assessment in Neuro-Oncology Patient Reported Outcome (RANO-PRO) initiative’**

**Supplementary Figure 1. Flow diagram (PRISMA) of the study selection process.**

**Supplementary Figure 2. Flow diagram (PRISMA) of the study selection process of studies registered at clinicaltrials.gov.**

**Supplementary table 1. Characteristics of all identified eligible PRO measures.**

Abbreviation	Full name	# used in studies published	# used in unpublished studies	Population of intended use	# of items	Subscales	Study type in which used
EORTC-QLQ-C30(+3)	European Organisation for Research and Treatment of Cancer - Quality of Life Questionnaire - Core 30(+3)	186	100	Cancer specific	30(+3)	5 functional scales (physical; role; emotional; cognitive; social); 3 symptom scales (fatigue; nausea and vomiting; pain); 7 single items (dyspnea; insomnia; appetite loss, constipation; diarrhea; financial difficulties) and GHS/QoL scale	Interventional; observational
EORTC-QLQ-BN20(+2)	European Organisation for Research and Treatment of Cancer - Quality of Life Questionnaire - Brain Cancer 20(+2)	164	83	Brain tumor specific	20(+2)	4 (future uncertainty; visual disorder; motor dysfunction; communication deficit); 7 single items (headache; seizures; drowsiness; hair loss; itchy skin; weakness of legs; bladder control)	Interventional; observational
FACT-Br	Functional Assessment of Cancer Therapy- Brain	121	46	Brain tumor specific	50	5 (physical-; social/family-; emotional-; functional well-being; disease specific concerns)	Interventional; observational
HADS	The Hospital Anxiety and Depression scale	62	8	Generic	14	2 (anxiety symptoms; depression symptoms)	Interventional; observational
SF-36	Short Form 36 Health Survey / RAND-36 / Medical Outcome Study	47	5	Generic	36	8 (physical functioning; physical role; pain; general health; vitality; social function; emotional role; mental health)	Interventional; observational

MDASI-BT	MD Anderson Symptom Inventory Brain Tumor	25	24	Brain tumor specific	28	6 factors (affective, cognitive, neurologic, constitutional, gastrointestinal and interference)	Interventional; observational
BDI(-II)	Beck Depression Inventory (-II)	38	9	Generic	21	BDI: 3 (negative attitude towards self; performance impairment; somatic symptoms); BDI-II: 2 (affective; somatic)	Interventional; observational
EQ-5D	EuroQoL 5 dimensions; 3 or 5 levels	36	12	Generic	6	5 (mobility; self-care; usual activities; pain/discomfort; anxiety/depression)	Interventional; observational
DT(+PL)	NCCN Distress Thermometer (and Problem List)	28	2	Cancer specific	1+39	6 (overall distress; spiritual/religious concerns; practical-; family-; emotional-; physical problems)	Interventional; observational
FACIT-F	Functional Assessment of Chronic Illness Therapy-Fatigue	19	5	Other indications	13	1 (disease specific concerns)	Interventional; observational
STAI-Y	State-Trait Anxiety Inventory Form Y	19	1	Generic	40	2 (trait anxiety; state anxiety)	Interventional; observational
EORTC-QLQ-C15-PAL	European Organisation for Research and Treatment of Cancer - Quality of Life Questionnaire - Core 15 - Palliative Care	15	5	Cancer specific	15	10 (GHS; physical functioning; emotional functioning; fatigue; nausea/vomiting; pain; dyspnea; insomnia; appetite loss and constipation)	Interventional; observational
MOS CFS	Medical Outcomes Study Cognitive Functioning Scale	15		Generic	6	1 (cognitive function)	Interventional; observational

BFI	Brief Fatigue Inventory	7	6	Cancer specific	9	2 (severity of fatigue; impact on daily function)	Interventional; observational
FACT-cog	Functional Assessment of Cancer Therapy-Cognitive Function	3	9	Cancer specific	37	4 (perceived cognitive impairments; comments from others; perceived cognitive abilities; impact on QoL)	Interventional; observational
FACT-G	Functional Assessment of Cancer Therapy-General	9	2	Cancer specific	27	4 (physical-; social/family-; emotional-; functional well-being)	Interventional; observational
ZSDS	Zung Self-Rating Depression Scale	10	1	Other indications	20	1 (depressive symptoms)	Interventional; observational
BAI	Beck Anxiety Inventory	6	4	Generic	21	1 (anxiety symptoms)	Interventional; observational
QOLIE-31-P	Patient Weighted Quality of Life in Epilepsy	10		Other indications	39	7 (emotional well-being; social function; energy/fatigue; cognitive functioning; seizure worry; medication effects; overall QoL) and health status	Interventional; observational
SQLI	Spitzer Quality of Life Index	10		Cancer specific	5	5 (activity; daily living; health; support; outlook)	Interventional; observational
AEP	Adverse Events Profile	9		Other indications	19	1 (AED adverse effects)	Interventional; observational
CES-D-20	Center for Epidemiologic Studies Depression Scale - 20 items	8	1	Generic	20	4 (somatic-retarded activity; depressed-; positive-; interpersonal affect)	Interventional; observational
MFI	Multidimensional Fatigue Inventory	6	3	Cancer specific	20	5 (general-; physical-; mental fatigue; reduced motivation; reduced activity)	Interventional; observational

PHQ-9	Patient Health Questionnaire 9-item	8	1	Generic	9	1 (depressive symptoms)	Interventional; observational
CFQ	Cognitive Failures Questionnaire	8		Generic	25	4 (memory; distractibility; (social) blunders; (memory for) names)	Interventional; observational
POMS-SF	Profile of Mood States - Short Form	8		Generic	37	6 (depression; anger; tension; confusion; fatigue; vigor)	Interventional; observational
PSQI	Pittsburgh Sleep Quality Index	2	6	Generic	19	7 (subjective sleep quality, sleep latency, sleep duration, sleep efficiency, sleep disturbance, use of sleep medication, daytime dysfunction)	Interventional; observational
PSS-10	Perceived Stress Scale 10-item	6	1	Generic	10	2 (perceived helplessness; perceived self-efficacy)	Interventional; observational
ESS	Epworth Sleepiness Scale	2	4	Generic	8	1 (daytime sleepiness)	Interventional; observational
POMS	Profile of Mood States	6		Generic	65	6 (depression; anger; tension; confusion; fatigue; vigor)	Interventional; observational
BASIQ	Brain Symptom and Impact Questionnaire	5		CNS disorder	18	2 (symptoms; interferences)	Observational
FACT-L	Functional Assessment of Cancer Therapy- Lung	2	3	Other indications	36	5 (physical-; social/family-; emotional-; functional well-being; disease specific concerns)	Interventional; observational
FLIC	Functional Living Index Cancer	5		Cancer specific	22	5 (physical well-being and ability; emotional state; sociability; family situation; nausea)	Observational
FrSBe	Frontal Systems Behavior Scale	4	1	CNS disorder	46	3 (apathy; disinhibition; executive dysfunction)	Interventional; observational

FSS	Fatigue Severity Scale	3	2	Other indications	9	1 (severity of fatigue symptoms)	Interventional; observational
IES-R	Impact of Events Scale-Revised	5		Other indications	22	3 (intrusion; avoidance; hyperarousal)	Observational
Osoba NV5	Osoba Nausea and Vomiting Module	4	1	Cancer specific	10	2 (nausea/emasis; retching)	Interventional
SNAS	Sherbrooke Neuro-oncology Assessment Scale	4	1	Brain tumor specific	30	7 (functional well-being; symptom severity/fear of death; social support/acceptance of disease; autonomy in personal care; digestive symptomatology; neurocognitive function; pain)	Interventional; observational
1-item LASA	1-item Linear Analog Self-Assessment	2	2	Generic	1	1 (overall QoL)	Interventional
BRIEF-A	Behavior Rating Inventory of Executive Function - Adult Version	3	1	CNS disorder	75	9 (inhibit; self-monitor; plan/organize; shift; initiate; task monitor; emotional control; working memory; organization of materials)	Interventional; observational
CIS	Checklist Individual Strength	4		Generic	20	4 (subjective fatigue; concentration, motivation; physical activity)	Interventional; observational
EORTC-QLQ-LC13	European Organisation for Research and Treatment of Cancer - Quality of Life Questionnaire - Lung Cancer 13	3	1	Other indications	13	10 (dyspnea; coughing; hemoptysis; sore mouth; dysphagia; peripheral neuropathy; alopecia; pain in chest; pain in arm or shoulder; pain in other parts)	Interventional; observational

FACT-B	Functional Assessment of Cancer Therapy- Breast	3	1	Other indications	37	5 (physical-; social/family-; emotional-; functional well-being; disease specific concerns)	Interventional
FBrSI-15	FACT Brain Symptom Index - 15	3	1	Brain tumor specific	15	1 (disease specific concerns)	Interventional
IIRS	Illness Intrusiveness Ratings	3	1	Other indications	13	5 (physical well-being and diet; work and finances; marital, sexual and family relations; recreation and social relations; other aspects of life)	Interventional; observational
MSAS	Memorial Symptom Assessment Scale	4		Cancer specific	32	3 (physical-; psychological symptoms; global distress)	Observational
PANAS	Positive and Negative Affect Schedule	3	1	Generic	20	2 (positive affect; negative affect)	Interventional; observational
PDI	Psychological Distress Inventory	4		Cancer specific	13	1 (psychological distress)	Interventional; observational
SF-12	Short Form 12 Health Survey / RAND-12 / Medical Outcome study	4		Generic	12	8 (physical functioning; physical role; pain; general health; vitality; social function; emotional role; mental health).	Observational
CES-D-10	Center for Epidemiologic Studies Depression Scale - 10 items	3		Generic	10	3 (somatic-retarded activity; depressed affect; positive affect)	Observational
CFS	Cancer Fatigue Scale	1	2	Cancer specific	15	3 (physical; affective; cognitive)	Interventional
CIQ	Community Integration Questionnaire	3		CNS disorder	15	3 (home integration; social integration; productivity)	Interventional; observational

DASS-21	Depression Anxiety Stress Scale Short Form	3		Generic	21	3 (depression; anxiety; stress)	Interventional; observational
EORTC-QLQ-BR23	European Organisation for Research and Treatment of Cancer - Quality of Life Questionnaire - Breast Cancer 23	1	2	Other indications	23	8 (body image; sexual functioning; sexual enjoyment; future perspective; systemic therapy side effects; breast symptoms; arm symptoms; upset by hair loss)	Interventional
ESAS-r	Edmonton Symptom Assessment System-Revised	1	2	Cancer specific	9	1 (symptom severity)	Interventional; observational
FPQLI-C	Ferrans and Powers Quality of Life Index - Cancer version	3		Cancer specific	66	4 (health and functioning; psychological/spiritual; social and economic; family) and overall QoL	Observational
GAD-7	Generalized Anxiety Disorder 7-item	2	1	Generic	7	1 (anxiety symptoms)	Observational
MAT	MASCC (Multinational Association of Supportive Care in Cancer) Antiemesis Tool	1	2	Cancer specific	8	4 (acute vomiting; acute nausea; delayed vomiting; delayed nausea)	Interventional
MQOLQ	McGill Quality of Life Questionnaire	3		Other indications	17	5 (physical well-being; physical symptoms; psychological; existential; support)	Interventional; observational
NHP	Nottingham Health Profile	3		Generic	45	7 (energy level; pain; emotional reaction; sleep; social isolation; physical abilities; life areas affected)	Observational

POS	Palliative care Outcome Scale	3		Other indications	10	5 (physical; emotional; psychological; spiritual; provision of information and support)	Observational
PTGI	Post-Traumatic Growth Inventory	3		Other indications	21	5 (relating to others; new possibilities; personal strength; spiritual change; appreciation of life)	Observational
SCL-90	Symptom CheckList - 90	2	1	Generic	90	9 (somatization; obsessive-compulsive; interpersonal sensitivity; depression; anxiety; hostility; phobic anxiety; paranoid ideation; psychotism)	Interventional; observational
SF-8	Short Form 8 Health Survey / RAND-8 / Medical Outcome study	3		Generic	8	8 (physical functioning; physical role; pain; general health; vitality; social function; emotional role; mental health)	Observational
WHOQOL-BREF	World Health Organization Quality of Life - BREF	3		Generic	26	4 (physical health; psychological; social relationships; environment) and overall QoL and GHS	Interventional; observational
ABS	Bradburn Affect Balance Scale	2		Generic	10	2 (positive affect; negative affect)	Observational
ASBQ	Anterior Skull Base Questionnaire	2		Other indications	35	5 (physical function; vitality; pain; influence of emotion; specific symptoms)	Observational
CIPI	Chronic Illness Problem Inventory	2		Other indications	65	19 (sleep; eating; finances; employment; medications; cognitive; physical appearance; body deterioration; sex; ADL; inactivity; social activity; family/friends contact; assertion;	Observational

						medical interaction; marital difficulty; marital overprotection; nonmarried relationships; illness focus)	
DASS-42	Depression Anxiety Stress Scale	2		Generic	42	3 (depression; anxiety; stress)	Observational
DSQ-C	Dexamethasone Symptom Questionnaire - Chronic	1	1	Cancer specific	17	4 (affective; appetite; dermatologic; indigestion)	Observational
EORTC-QLQ-FA12	European Organisation for Research and Treatment of Cancer - Quality of Life Questionnaire - Cancer Related Fatigue 12	1	1	Cancer specific	12	3 (physical; cognitive; emotional)	Interventional; observational
FACIT-SP-12	Functional Assessment of Chronic Illness Therapy - Spiritual Well-Being - 12	1	1	Other indications	12	1 (spiritual well-being)	Interventional; observational
GDS	Geriatric Depression Scale	2		Other indications	30	1 (depression)	Observational
HUI-15Q	Health Utility Index - 15 item Questionnaire	2		Generic	15	9 (vision; hearing; speech; ambulation/mobility; pain; dexterity; self-care; emotion; cognition)	Observational
ISI	Insomnia Severity Index	1	1	Other indications	7	1 (sleep problems)	Interventional; observational

M-FLIE	Modified Functional Living Index-Emesis	2		Cancer specific	18	2 (nausea; vomiting)	Interventional
MFSI-SF	Multidimensional Fatigue Symptom Inventory Short form	2		Generic	30	5 (general; physical; emotional; mental; vigor)	Observational
NFBrSI-24	NCCN-FACT-Brain Symptom Index - 24	1	1	Brain tumor specific	24	1 (disease specific concerns)	Interventional; observational
NTUIS-Self	National Taiwan University Irritability Scale-Self		2	CNS disorder	18	2 (verbal aggression; annoyance)	Observational
PAIS-SR	Psychosocial Adjustment to Illness Scale - Self Report	2		Other indications	46	7 (healthcare orientation; vocational environment; domestic environment; sexual relationships; extended family relationships; social environment; psychological distress)	Observational
PCL-C	PTSD Checklist-Civilian Version	2		Generic	17	1 (PTSD symptoms)	Interventional; observational
POMS-SF-32	Profile of Mood States - Short Form - 32	2		Generic	32	5 (depression; anger; fatigue; tension; vigor)	Observational
PRO-CTCAE-Anxiety	Patient-Reported Outcomes version of the Common Terminology Criteria for Adverse Events - Anxiety		2	Cancer specific	3	1 (anxiety)	Interventional
PROMIS AbilityParticinSocRoles andActivities	Patient-Reported Outcomes Measurement Information System -	2		Generic	35	1 (ability to participate in social roles and activities)	Observational

	Ability to Participate in Social Roles and Activities						
PROMIS Anxiety	Patient-Reported Outcomes Measurement Information System - Anxiety	2		Generic	29	4 (fear; anxious misery; hyperarousal; somatic symptoms related to arousal)	Observational
PROMIS Depression	Patient-Reported Outcomes Measurement Information System - Depression	2		Generic	28	4 (negative mood; views of self; social cognition; decreased positive affect and engagement)	Interventional; observational
PROMIS Pain Interference	Patient-Reported Outcomes Measurement Information System - Pain Interference	2		Generic	40	5 (pain hinders engagement in social-; cognitive-; emotional-; physical-; recreational activities)	Observational
PROMIS Physical Function	Patient-Reported Outcomes Measurement Information System - Physical Function	2		Generic	165	4 (functioning of upper extremities; lower extremities; central regions; IADL)	Observational
PROMIS Sleep Disturbance	Patient-Reported Outcomes Measurement Information System - Sleep Disturbance	2		Generic	27	3 (sleep quality; sleep depth; restoration associated with sleep)	Observational

PROMIS-Pain Behavior SF	Patient-Reported Outcomes Measurement Information System - Pain Behavior - Short Form	2		Generic	7	3 (observable displays; pain severity behaviors; verbal reports of pain)	Interventional; observational
RSC(-ALS)	Rotterdam Symptom Checklist (-Activity Level Scale)	2		Generic	8	1 (activity level scale)	Observational
SGPALS	Saltin & Grimby Physical Activity Level Scale	2		Generic	1	1 (physical activity)	Observational
SSQ14	Burden of cognitive complaints	2		Brain tumor specific	3	1 (burden of cognitive complaints)	Interventional
SSQ15	Brain metastases symptom checklist	2		Brain tumor specific	17	1 (brain metastases symptoms)	Interventional
10-item LASA	10-item Linear Analog Self-Assessment		1	Generic	10	10 (overall QoL; fatigue; frequency of pain; severity of pain; social functioning; physical; spiritual; emotional; mental well-being; unknown)	Interventional
5-item LASA	5-item Linear Analog Self-Assessment	1		Generic	5	5 (physical-; emotional-; spiritual-; intellectual well-being; overall QoL)	Meta-analyses
ADLS	Activities of Daily Living Scale	1		Brain tumor specific	38	9 (self-care activities; household care; employment and recreation; shopping and money; travel; communication; social relationships; sexual function; depression)	Interventional

A-IADL-Q	Amsterdam Instrumental Activities of Daily Living Questionnaire	1		Other indications	32	1 (IADL)	Observational
ASDS	Acute Stress Disorder Scale	1		Other indications	19	4 (dissociation; reexperiencing; avoidance; arousal)	Observational
ASEX	Arizona Sexual Experiences Scale	1		Generic	5	1 (sexual function)	Observational
ASI-3	Anxiety Sensitivity Index - 3	1		Generic	18	3 (physical-; social-; cognitive concerns)	Observational
ASK NASAL-12	The Anterior Skull Base Nasal Inventory 12	1		Other indications	12	2 (symptom; sensory)	Observational
BICRO-39	Brain Injury Community Rehabilitation Outcome Scale	1		CNS disorder	39	8 (personal care; mobility; self- organization; contact with partner/own children; contact with parents/siblings; socializing; productive employment; psychological)	Observational
BIS	Body Image Scale	1		Cancer specific	10	1 (body image)	Observational
BMIS	Brief Mood Introspection Scale	1		Generic	16	4 (pleasant-unpleasant; arousal- calm; positive-tired; negative- relaxed)	Interventional
BMSC	Brain Metastases Symptom Checklist	1		Brain tumor specific	18	1 (brain metastases symptoms)	Observational
BPI-SF	Brief Pain Inventory - Short Form	1		Cancer specific	9	2 (severity of pain; impact on daily function)	Observational
BSDS	Brief Sleep Disturbance Scale	1		Cancer specific	Unknown	Unknown	Interventional

CARES-SF	Cancer Rehabilitation Evaluation System - Short Form	1		Cancer specific	59	5 (physical; psychosocial; marital; medical interaction; sexual)	Observational
CDSS	Cambridge Depersonalisation Scale State	1		Other indications	22	4 (emotional numbing; memories recall; alienation; body experience)	Observational
CES-D-15	Center for Epidemiologic Studies Depression Scale - 15	1		Generic	15	3 (somatic-retarded activity; depressed affect; interpersonal affect)	Observational
CSC-W59	Cognitive Symptom Checklist - Work 59	1		Cancer specific	59	3 (attention; executive function; working memory)	Observational
DADDS	Death and Dying Distress Scale	1		Cancer specific	15	1 (death-related distress)	Observational
DS	Demoralization Scale	1		Cancer specific	24	5 (loss of meaning and purpose; dysphoria; disheartenment; helplessness; sense of failure)	Observational
DSQ	Dexamethasone Symptom Questionnaire	1		Cancer specific	13	2 (dexamethasone side-effect; nausea/vomiting)	Observational
EBIQ	European Brain Injury Questionnaire	1		CNS disorder	63	8 (somatic; cognitive; motivation; impulsivity; depression; isolation; physical; communication)	Observational
e-RSCL	Extended Rotterdam Symptom Checklist	1		Cancer specific	47	4 (physical symptom distress; psychological distress; activity level; overall evaluation of QoL)	Observational
ESAS-GM	Edmonton Symptom Assessment System Glioma Module	1		Brain tumor specific	17	2 (core symptoms; neurological symptoms)	Observational

ESDQ	Emotional and Social Dysfunction Questionnaire	1		CNS disorder	51	8 (anger; emotional dyscontrol; helplessness; inertia; fatigue; indifference; inappropriate; euphoric)	Observational
ESSS	Embodied Sense of Self Scale	1		Other indications	25	3 (agency; ownership; narrative)	Observational
FLSI	FACT Lung Symptom Index	1		Other indications	6	1 (disease specific concerns)	Interventional
FOP-Q-SF	Fear of Progression Questionnaire Short Form	1		Other indications	12	4 (affective reactions; partnership/family; occupation; loss of autonomy)	Observational
FSQoLS	Fox Simple Quality of Life Scale	1		Cancer specific	25	2 (cognitive; affective)	Observational
GHQ-28	General Health Questionnaire - 28	1		Generic	28	4 (somatic symptoms; anxiety and insomnia; social dysfunction; severe depression)	Observational
GOS	Glioma Outcomes Scale	1		Brain tumor specific	21	1 (symptom and functional status) and single item QoL	Observational
GSDS	General Sleep Disturbance Scale	1		Generic	21	6 (difficulty getting to sleep; waking up during sleep; quality of sleep; quantity of sleep; daytime sleepiness; use of substances to help induce sleep)	Observational
HDI-SF	Hamilton Depression Inventory - Short Form	1		Generic	9	1 (depressive symptoms)	Observational
HHI	Herth Hope Scale	1		Generic	12	3 (temporality and future; positive readiness/expectancy; interconnectedness)	Observational

HUS	Hassles and Uplifts Scale	1		Generic	53	2 (hassles; uplifts)	Observational
IDS-SR	Inventory of Depressive Symptomatology - Self Report		1	Other indications	30	3 (cognitive/mood; anxiety/arousal; sleep and appetite regulation)	Interventional
IPQ-R	Illness Perceptions Questionnaire-Revised	1		Brain tumor specific	81	7 (identity; timeline acute/chronic; consequences; personal control; treatment control; illness coherence; timeline cyclical; emotional representation; biopsychosocial attributions; external attributions; risk factors; biological/uncontrollable attributions)	Observational
LLFDI-F	Late Life Function and Disability Instrument-Function Component	1		Other indications	32	3 (upper extremity; basic lower extremity; advanced lower extremity functions)	Observational
MDASI-LC	MD Anderson Symptom Inventory Lung Cancer	1		Other indications	22	2 (symptom severity; interference)	Observational
MDMQ	Multidimensional Mood State Questionnaire	1		Generic	30	3 (good-bad; awake-tired; calm-nervous)	Observational
MHS	Miller Hope Scale	1		Generic	40	3 (satisfaction with self, others and life; avoidance of hope threats; anticipation of a future)	Observational

MQOLS-CA2	Multidimensional Quality of Life Scale - Cancer version 2	1		Cancer specific	33	5 (physical-; psychological-; nutritional-; interpersonal well-being; symptom management)	Observational
MSISQ15	Multiple Sclerosis Intimacy and Sexuality Questionnaire		1	Other indications	15	3 (primary-; secondary-; tertiary sexual dysfunction)	Interventional
NeuroQoL	Quality of Life in Neurological Disorders		1	CNS disorder	Unknown	Unknown	Observational
Neuro-QOL Cognitive Function	Quality of Life in Neurological Disorders - Cognitive Function	1		CNS disorder	28	2 (cognitive abilities; application of cognitive abilities to everyday tasks)	Observational
Neuro-QOL Emotional & Behavioral Dyscontrol	Quality of Life in Neurological Disorders - Emotional and Behavioral Dyscontrol	1		CNS disorder	18	5 (disinhibition; emotional lability; irritability; impatience; impulsiveness)	Observational
PASS-20	Pain Anxiety Symptom Scale-20 items	1		Other indications	20	4 (fearful thinking; cognitive anxiety responses; escape and avoidance behavior; physiological anxiety responses)	Observational
PCRS	Patient Competency Rating Scale	1		Other indications	30	4 (ADL; cognitive abilities; interpersonal/behavioral-; emotional function)	Observational
PDEQ	Peritraumatic Dissociative Experience Questionnaire	1		Other indications	10	1 (peritraumatic dissociation)	Interventional
PDS	Posttraumatic Stress Diagnostic Scale	1		Other indications	49	4 (PTSD diagnosis; symptom severity; level of impairment of functioning)	Observational

PGIC	Patient's Global Impression of Change	1		Other indications	1	1 (health status)	Observational
PHQ-4	Patient Health Questionnaire 4-item	1		Generic	4	2 (depressive symptoms; anxiety symptoms)	Observational
PIPP	Perceived Impact of Problem Profile	1		Generic	23	5 (mobility; self-care; relationships; participation; psychological well-being)	Observational
PPQ	Patients' Perspective Questionnaire	1		Brain tumor specific	28	3 (psychosocial distress; support provided/subjective benefit; support requested)	Observational
PRMQ	Prospective-Retrospective Memory Questionnaire		1	Generic	16	2 (prospective; retrospective)	Interventional
PRO-CTCAE (study-specific)	Patient-Reported Outcomes version of the Common Terminology Criteria for Adverse Events		1	Cancer specific	Unknown	Unknown	Observational
PROMIS Depression SF	Patient-Reported Outcomes Measurement Information System - Depression - Short Form	1		Generic	8	4 (negative mood; views of self; social cognition; decreased positive affect and engagement)	Interventional
PROMIS Fatigue	Patient-Reported Outcomes Measurement Information System - Fatigue	1		Generic	95	4 (experience of fatigue; impact of fatigue on physical; mental; social activities)	Observational

PROMIS Pain Intensity	Patient-Reported Outcomes Measurement Information System - Pain Intensity	1		Generic	3	1 (pain intensity)	Observational
PROMIS PIIP SF	Patient-Reported Outcomes Measurement Information System - Psychosocial Illness Impact-Positive - Short Form	1		Cancer specific	8	4 (self-concept; social connection; coping; meaning and spirituality)	Observational
PROMIS Sleep-Related Impairment	Patient-Reported Outcomes Measurement Information System - Sleep-Related Impairment	1		Generic	16	2 (alertness/sleepiness/tiredness during waking hours; functional impairments during wakefulness associated with sleep problems/impaired alertness)	Observational
PROMIS-GH	Patient-Reported Outcomes Measurement Information System - Global Health		1	Generic	10	2 (physical; mental)	Interventional
PSS-14	Perceived Stress Scale 14-item	1		Generic	14	2 (perceived helplessness; perceived self-efficacy)	Interventional
PTSS-10	Posttraumatic Symptom Scale - 10	1		Other indications	10	1 (PTSD symptoms)	Observational
QOLCS	Quality of Life Cancer Survivor	1		Cancer specific	41	4 (physical-; psychological-; spiritual wellbeing; social concerns)	Observational

RSE	Rosenberg Self-Esteem Scale	1		Generic	10	1 (self-esteem)	Observational
SAS	Zung Self-Rating Anxiety Scale	1		Generic	20	1 (anxiety symptoms)	Observational
SAS-SR	Social Adjustment Scale Self-Report	1		Generic	42	6 (work; social and leisure; extended family; marital; parental; family unit)	Observational
SDS	Symptom Distress Scale	1		Cancer specific	13	1 (symptom distress)	Observational
SFMPQ	Short-Form McGill Pain Questionnaire		1	Other indications	15	2 (sensory; affective)	Interventional
Sintenon's 15D	Sintenon's Quality of Life Questionnaire 15D	1		Generic	15	1 (health state)	Observational
SMQ	Short-Memory Questionnaire	1		Other indications	14	1 (memory deficits)	Observational
SNOT-22	Sino-Nasal Outcome Test	1		Other indications	22	3 (physical problems; functional limitations; social/emotional consequences)	Observational
SQ	Symptom Questionnaire	1		Other indications	92	4 psychological symptom scales (anxiety; depressive; anger-hostility; somatic); 4 well-being scales (contented; relaxed; friendly; somatic)	Observational
SQoL	Subjective estimation of Quality of Life	1		Generic	18	4 (external life conditions; interpersonal relationships; internal psychological states; overall QoL)	Observational

SRKP	Self-Reported Karnofsky Performance	1		Cancer specific	1	1 (physical functioning)	Observational
SSQ1	Symptom relief medical marijuana	1		Brain tumor specific	7	1 (symptom relief)	Observational
SSQ10	Visual Analogue Scale pain	1		Brain tumor specific	1	1 (pain)	Interventional
SSQ11	Visual Analogue Scales pain, well-being, fatigue and ability to perform daily activities	1		Brain tumor specific	3	3 (well-being; fatigue; ability to perform daily activities)	Interventional
SSQ12	Brain Metastases Symptom Checklist	1		Brain tumor specific	17	1 (brain metastases symptoms)	Observational
SSQ13	Visual Analogue Scales Somnolence	1		Brain tumor specific	5	5 (strong-feeble; coordinated-clumsy; lethargic-energetic; mentally slow-quick witted; full of energy-total exhaustion)	Observational
SSQ16	Quality of life	1		Brain tumor specific	2	2 (global QoL; global QoH)	Observational
SSQ17	Quality of life	1		Brain tumor specific	25	4 (physiological; psychological; patient satisfaction with medical care; ADL/self-care)	Observational
SSQ18	Brain Metastasis Patient Survey	1		Brain tumor specific	10	4 (perception regarding treatment; side effects; activity level; overall satisfaction)	Observational
SSQ19	Daily symptom assessment	1		Brain tumor specific	3	1 (nausea, vomiting and headache)	Interventional
SSQ2	Headache	1		Generic	1	1 (headache intensity)	Observational

SSQ20	Fear and relaxation during elective awake craniotomy	1		Brain tumor specific	2	2 (fear, relaxation)	Observational
SSQ21	Depression	1		Brain tumor specific	3	1 (depression)	Observational
SSQ22	Cognitive and motor function	1		Brain tumor specific	11	1 (cognitive and motor function)	Observational
SSQ23	Subjective well-being	1		Brain tumor specific	1	1 (subjective well-being)	Observational
SSQ24	Quality of life	1		Brain tumor specific	21	1 (somatization; satisfaction in various life situations)	Observational
SSQ25	Innsbruck Health Dimensions Questionnaire for Neurosurgical Patients (IHD-NS)	1		CNS disorder	53	4 (economic situation; physical complaints; difficulties with ADL; social and family situation)	Observational
SSQ26	Quality of Life Measurement: the Toronto Instrument	1		Brain tumor specific	29	9 (physical-; role-; cognitive-; social-; emotional functioning; functional well-being; physical experience; relationship with doctor; global QoL)	Interventional
SSQ27	Quality of life Questionnaire	1		Brain tumor specific	47	4 (physical; psychological; social; symptoms)	Interventional
SSQ28	Somnolence daily diary	1		Brain tumor specific	11	1 (somnolence symptoms)	Observational
SSQ29	PRESTON Profile	1		Brain tumor specific	35	7 (physical functioning; relatives and relationships; emotional state; social functioning; tomorrow and the future;	Observational

						ongoing needs; neurological deficit)	
SSQ3	Surgery-related discomfort and anxiety	1		Brain tumor specific	16	2 (anxiety; cause of discomfort)	Observational
SSQ30	Quality of life Questionnaire	1		Brain tumor specific	54	10 (energy; leisure; cognition; socializing; work; symptoms; sex life; depression; well-being; memory)	Observational
SSQ31	Physical and cognitive symptoms	1		Brain tumor specific	10	2 (physical complaints; memory and concentration)	Observational
SSQ32	Well-being L.A.S.A.	1		Other indications	10	3 (feelings; performance; symptoms)	Observational
SSQ33	Prediagnostic brain tumor related symptoms	1		Brain tumor specific	30	1 (prediagnostic symptoms)	Observational
SSQ34	Device-Specific Questionnaire	1		Brain tumor specific	21	2 (effect of therapy on daily life; effect of therapy on QoL)	Observational
SSQ35	Impact of treatment on quality of life	1		Brain tumor specific	3	3 (alimentation and diet; complementary treatment; traditional medicine or parallel techniques)	Observational
SSQ36	Leisure Time Physical Activity Level Questionnaire	1		Generic	1	1 (leisure time physical activity level)	Observational
SSQ37	Visual Analogue Scale Cosmetic Outcome	1		Other indications	1	1 (cosmetic outcome after surgery for spheno-orbital meningioma)	Observational

SSQ38	Symptoms after radiotherapy		1	Cancer specific	12	1 (symptoms after radiotherapy)	Interventional
SSQ4	Subjective cognitive complaints	1		Brain tumor specific	31	3 (attention/executive function; language; memory)	Observational
SSQ5	Anxiety and mood	1		Generic	2	2 (anxiety; mood)	Observational
SSQ6	ICF-checklist activity and participation	1		Generic	50	9 (learning and applying knowledge; general tasks and demands; communication; mobility; self-care; domestic life; interpersonal interaction and relationship; major life areas; community social and civic life)	Observational
SSQ7	Impact of changes since surgery/diagnosis	1		Brain tumor specific	5	5 (emotional control; interpersonal relationships; cognition; physical ability; general day-to-day coping)	Observational
SSQ8	Visual Analogue Scale Pain	1		Generic	1	1 (pain)	Observational
SSQ9	Impact of olfactory alterations on quality of life	1		Other indications	1	1 (impact of olfactory alteration on QoL)	Observational
TSQ	Taste and Smell Questionnaire	1		Other indications	14	2 (taste complaint; smell complaint)	Observational
USER-Participation	Utrecht Scale for Evaluation of Rehabilitation-Participation	1		Generic	32	4 (time spend on certain activities; frequency of certain activities; limitations in daily life; satisfaction with daily life)	Observational
VAMS	Visual Analog of Mood Scales	1		CNS disorder	8	8 (sad; confused; afraid; happy; tired; angry; tense; energetic)	Observational

VFQ-25	Visual Functioning Questionnaire - 25		1	Other indications	25	12 (general health; general vision; ocular pain; near activities; distance activities; social functioning; mental health; role difficulties; dependency; driving; color vision; peripheral vision)	Observational
WHOQOL-100	World Health Organization Quality of Life - 100	1		Generic	100	6 (physical; psychological; level of independence; social relationships; environment; spirituality/religion/personal beliefs) and overall QoL and general health perception	Observational
WI-14	Whiteley Index (hypochondriasis) - 14	1		Generic	14	3 (disease phobia; bodily preoccupation; disease conviction)	Observational
WLQ	Work Limitations Questionnaire	1		Generic	25	4 (time management; physical-; mental/interpersonal-; output demands)	Observational
WPAI+CIQ:SHP	Work Productivity and Activity Impairment - Special Health Problem	1		Generic	10	1 (work productivity and regular activities)	Observational
WPAI-GH	Work Productivity and Activity Impairment Questionnaire-General Health		1	Generic	6	1 (work productivity and regular activities)	Interventional
