

Table 3

Competence levels

Competence level		Description
1	Referenced knowledge	The student is familiar with the addressed issue and can reproduce its content.
2	Applied factual and conceptual knowledge	The student is able to explain the content.
3a	Applied knowledge and practical experience	The student is able to perform and apply the respective issue under supervision.
3b	Applied knowledge and practical experience	The student is able to perform fully independently.

Level of competency as described in the NKLM¹³ and by Röhrig et al.¹⁶

All members of the project group evaluated at which competence level learning outcomes should be taught at each academic year.
