

Table S2: Relevance of the training content and learning curve reported by general practitioners (GPs) directly following the training (N=69 GPs from 52 practices).

	% (n)	Score, mean \pm SD
How do you estimate your learning growth achieved throughout the training? (Question (Q): 2.4)^a		4.12 \pm 0.74
Very high	31.9% (22)	
High	47.8% (33)	
Medium	17.4% (12)	
Small	1.4% (1)	
Very small	0% (0)	
N/A	1.4% (1)	
The relevance of the training content for daily GP practice became apparent (Q: 2.3)^b		4.60 \pm 0.67
Totally Agree	65.2% (45)	
Agree	30.4% (21)	
Partly Agree	1.5% (1)	
Disagree	0% (0)	
Totally disagree	1.5% (1)	
N/A	1.5% (1)	
I plan to implement the structured brief smoking cessation advice according to the "ABC"/"5A" method more frequently in my daily practice in the future (Q: 3.4)^b		4.56 \pm 0.63
Totally Agree	62.3% (43)	
Agree	29.0% (20)	
Partly Agree	7.2% (5)	
Disagree	0% (0)	
Totally disagree	0% (0)	
N/A	1.4% (1)	

Data are presented as proportions %; N/A= no answer, SD = standard deviation, Q= question number in the respective questionnaire following the training; ^ascores: 1 = very small, 2 = small, 3 = medium, 4 = high, 5 = very high; ^bscores: 1= totally disagree, 2= partly disagree, 3= partly agree, 4= agree, 5= totally agree.
