

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-21-512">http://dx.doi.org/10.21037/atm-21-512</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The correctness scores will be shared. We also plan to make the software for the VR application available.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Questionnaires, Tests, statistical analysis will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year after publication date, since technical innovations especially in VR will probably outdate actual study.
7	To whom will you share the data?	Surgeons, surgical educators and computer scientist who are interested in 3D reconstructions.
8	For what type of analysis or purpose?	For the use of a 3D presentation modality in surgical planning or education or for a follow up study.
9	How or where can the data/documents be obtained?	Email could be sent to the address below to obtain the shared data: <a href="mailto:Tobias.Huber@unimedizin-mainz.de">Tobias.Huber@unimedizin-mainz.de</a>
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
