

Supplementary Figure 3. Characterization of CFS EVs by NTA using the ViewSizer 3000. Representative PSD of the EV sample measured on an alternate NTA platform, the ViewSizer 3000. Graph is representative for measuring samples using the optimal particle/frame rate according to the ViewSizer 3000. Concentration histogram is not background-subtracted and is unadjusted for the dilution factor. CFS: Cell-free saliva; EVs: extracellular vesicles; PSD: particle size distribution.
