

Figure S1. Detection results of CircCD151 overexpression efficiency. Data are presented as the means  $\pm$  standard deviation. \*\*P<0.01. Circ, circular RNA; NC, negative control.

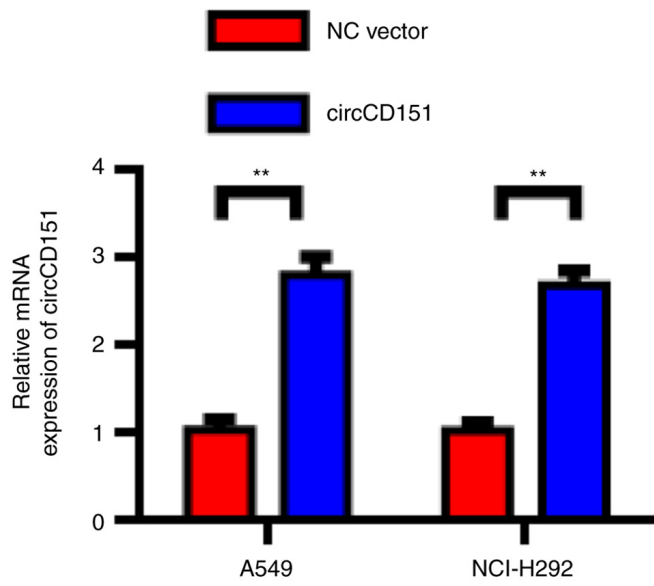

Figure S2. Verification results of siRNA GLI2 knockdown efficiency. Data are presented as the means  $\pm$  standard deviation. \*\*P<0.01. Circ, circular RNA; NC, negative control; si, short interfering.
