

**Table 1** Competency Milestones Assessed in Medical Students [19,21]

<i>Milestone and Subcategories</i>	<i>Milestone Description</i>
<b>Patient Care (PC)</b>	
PC1a	History: Thoroughness and Organization
PC1b	Physical Exam: Thoroughness, Organization, and Accuracy
PC2a	Clinical Reasoning: Thought process
PC2b	Clinical Reasoning: Differential Diagnosis
PC2c	Clinical Reasoning: Diagnostic Work-up
PC7a	Clinical Judgment: Self-knowledge
PC7b	Clinical Judgment: Assessment and Plan
PC7c	Clinical Judgment: Entrustability
PC7e	(OG)RIME
<b>Interpersonal and Communication Skills (ICPS)</b>	
IPCS7a	Rapport and empathy with patients and families
IPCS7b	Flow, style and content of case presentations to supervisors, colleagues, or teams
<b>Medical Knowledge (MK)</b>	
MK2a	Integration of scientific knowledge essential for one's chosen field of practice
MK2b	Depth of scientific knowledge essential for one's chosen field of practice
MK7a	Approach to learning to analyze, interpret, and prioritize new information
MK7b	Inquiry of new information
MK7c	Use of information resources
<b>Practice-based Learning and Improvement (PBLI)</b>	
PBLI2	Continuous pursuit of learning
PBLI3a	Receptivity to feedback
PBLI3b	Initiative in seeking feedback
PBLI3c	Self-assessment: Use of data to identify learning needs and implement learning strategies
<b>Systems-based Practice (SBP)</b>	
SBP2a	Initiative and contribution to address needs of the team
SBP2b	Prioritization of patient care activities
SBP2c	Influence on group dynamics
SBP2d	Conflict management
<b>Professionalism (PR)</b>	
PR1a	Professional demeanor
PR1b	Professional duty
PR5a	Honesty
PR5b	Transparency
PR8a	Respect for all regardless of differences in values, beliefs, and experiences
PR8b	Sensitivity to others
