

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-21-378">https://dx.doi.org/10.21037/atm-21-378</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Y
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The protective effects of daidzein in Con A-induced liver injury and AML-12 apoptosis, we have demonstrated that daidzein reduced the Con A-induced oxidative stress response and hepatocyte apoptosis, which had not been shown before.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Medical researcher and hepatic surgeons who are interested in studies of AIH.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of daidzein in AIH patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 305868659@qq.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
