

Supplemental Figure 1

Female CBD-treated mice gained less weight during the 3-week treatment period. Summary bar chart showing the percent change in body weight from day 1 to day 21 of the treatment period in male and female mice treated with vehicle (white) or CBD (gray). Male mice treated with vehicle and CBD showed a similar percent increase in body weight (vehicle: $73.91 \pm 3.87\%$; CBD: $77.81 \pm 4.58\%$), whereas females treated vehicle gained a higher percent of their body weight than CBD treated mice (vehicle: $75.41 \pm 12.91\%$; CBD: $46.14 \pm 2.73\%$). * indicates $P < .05$ by Tukey's HSD post hoc comparisons.
