

Figure S3. LDH binds to Group 3 PRD motif. (A) PspA_{WU2}, fragments (F-1, F-2, F-3, F-4 and F-5), (B) PRDs (WU2 PRD, EF6978 PRD and TIGR4 PRD) as bait were pulled-down with LDH and as visualized by Coomassie blue stains. Bound LDH were detected by immunoblotting using monoclonal anti-LDH antibody. The red arrow indicated LDH size.
