Subject: Acknowledgement consent

Hey Yijen and Kate,
We have finally gotten tentative acceptance on our eBiomedicine manuscript EBIOM-D-21-00498R1 “Novel theranostic agent for PET imaging and targeted radiopharmaceutical therapy of tumor-infiltrating immune cells in glioma”.

You are both acknowledged in the manuscript. If you consent to acknowledgement, please reply positively in to this email by Friday 13, 2021.

Thanks,

Barry
