

Supplementary Information of "United We Stand, Divided We Fall: Socio-Political Predictors of Physical Distancing and Hand Hygiene during the COVID-19 Pandemic".

1. Attrition analyses
2. Supplementary Table 1 and Supplementary Table 2
3. Detailed material

1. Attrition analyses

Compared to participants who participated in both waves, people lost to follow up had greater hand hygiene before COVID-19 ($M_{\text{attrited}} = 0.11$, $SD = 0.77$; $M_{\text{retained}} = -0.45$, $SD = 0.68$; t [3028] = 5.88, $p < .001$), perceived greater risk to their health ($M_{\text{attrited}} = 3.99$, $SD = 3.82$; $M_{\text{retained}} = 3.82$, $SD = 1.46$; t [3028] = 3.19, $p = .001$), and perceived Australians as having less positive social interactions ($M_{\text{attrited}} = 4.58$; $SD = 0.99$; $M_{\text{retained}} = 4.71$, $SD = 0.99$, t [3027] = 3.36, $p = .001$; ; with a Bonferroni correction for 23 comparisons, significance set at $p < .002$).

2. Supplementary Table 1 and Supplementary Table 2

Table 1

2. Detailed material

2.1 Social relations

1	2	3	4	5	6	7
Strongly disagree						Strongly agree

Social relations in Australia

I think that in Australia ...

- ... people are willing to help others (HELPING)
- ... people trust each other (TRUST)
- ... people generally do not get along with each other (POSITIVE INTERACTIONS, recoded)
- ...people form a close-knit community (POSITIVE INTERACTIONS)
- ... people feel safe walking at night (SAFETY)
- ... people from different national or ethnic backgrounds get along well together (POSITIVE ETHNIC INTERACTIONS)
- ... people work together to solve problems (COLLECTIVE PROBLEM SOLVING)
- ... people have civil conversation with those who have different views to their own (COLLECTIVE PROBLEM SOLVING)
- ... people respect practices from other national or ethnic groups, even when they disagree with these practices (POSITIVE ETHNIC INTERACTIONS)
- ... people respect national rules and laws (FOLLOWING RULES)

Social relations in the neighbourhood

I think that in my neighbourhood ...

- ... people are willing to help others (HELPING)
- ... people trust each other (TRUST)
- ... people generally do not get along with each other (POSITIVE INTERACTIONS, recoded)
- ...people form a close-knit community (POSITIVE INTERACTIONS)
- ... people feel safe walking at night (SAFETY)
- ... people from different national or ethnic backgrounds get along well together (POSITIVE ETHNIC INTERACTIONS)
- ... people work together to solve problems (COLLECTIVE PROBLEM SOLVING)
- ... people have civil conversation with those who have different views to their own (COLLECTIVE PROBLEM SOLVING)

... people respect practices from other national or ethnic groups, even when they disagree with these practices (POSITIVE ETHNIC INTERACTIONS)

... people respect national rules and laws (FOLLOWING RULES)

2.2 Identification

1	2	3	4	5	6	7
Strongly disagree						Strongly agree

Identification with neighbourhood

I identify as a member of my neighbourhood

Identification with Australians

I identify as Australian

I take pride in the Australian way of life and culture

I have a sense of belonging in Australia

2.3 Confidence in the government

1	2	3	4	5	6	7
Strongly disagree						Strongly agree

Confidence in the state government

I trust the way the **state** government communicates information

I trust the economic strategies of the **state** government

My faith in the **state** government is strong

Confidence in the federal government

I trust the way the **federal** government communicates information

I trust the economic strategies of the **federal** government

My faith in the **federal** government is strong

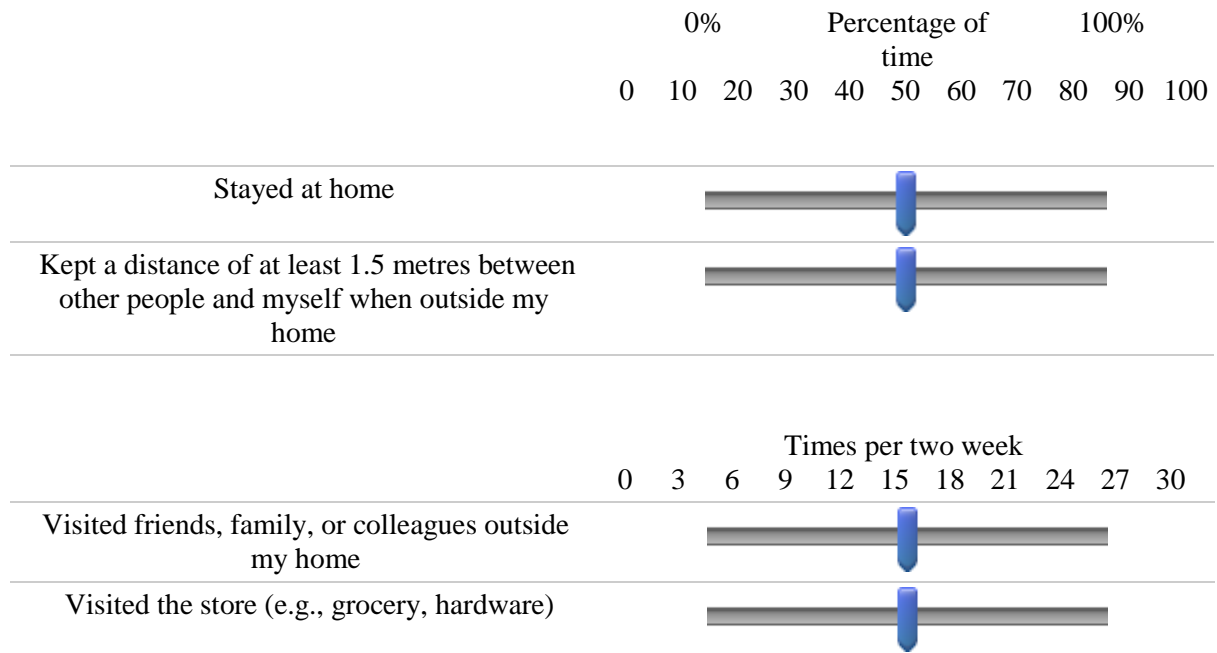

2.4 Political orientation

What would best describe your political orientation?

	1	2	3	4	5	6	7
	Very left leaning	Left leaning	Centre left	Centre	Centre right	Right leaning	Very right leaning

2.5 Physical distance

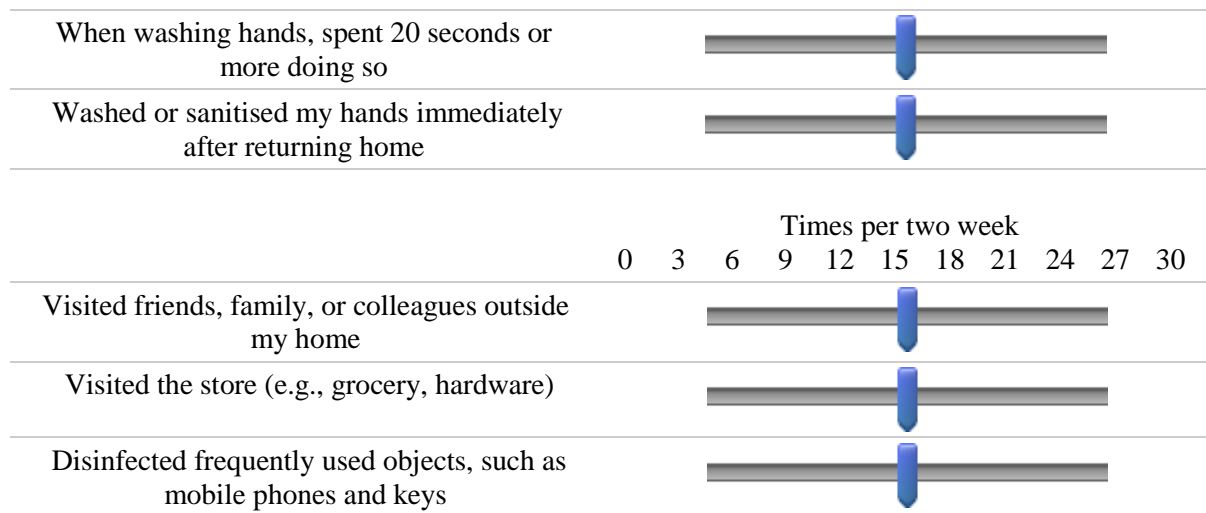

Select the percentage that best describes how often you do the following behaviours.

2.6 Hand hygiene

Select the percentage that best describes how often you do the following behaviours.

During **the last two weeks**, I washed my hands...

2.7 Health variables

Subjective Health

In general, would you say your health is ...

Self-efficacy

With today as a starting point, if recommended by Health officials, for how many more months do you think you could engage with.....

... social distance measures? (0 to 12 months)

...current hygiene recommendations (0 to 12 months)

Perceived risk

How **risky** do you think each of these activities would be for your own health?

Going for a walk with ...

- ... a family member living with me
- ... a family member who doesn't live with me
- ... a friend of the same ethnic group as me
- ... a friend of a different ethnic group
- ... a neighbour
- ... someone from another neighbourhood
- ... someone from my state
- ... someone from another state
- ... an Australian
- ... someone not from Australia

Tested COVID-19

Have you tested positive for the Coronavirus (COVID-19), meaning that you (now or earlier) have had a medically confirmed case of this disease?

- Yes
- No

Has anyone you know well (friend, partner, family, colleague etc.) tested positive for the Coronavirus (COVID-19)?

- Yes (1)
- No (2)

2.8 Demographic questions

What is your sex?

- Male
- Female
- Other

In what country were you born? [open ended question]

Consider your ancestry back as far as two generations (i.e. your parents and grandparents).

- Australian

- English
- Irish
- Chinese
- Scottish
- Italian
- German
- Indian
- Greek
- Dutch
- Other (please specify)

What is your individual WEEKLY income after income tax?

- Negative income
- Nil income
- \$1 - \$149 per week
- \$150 - \$299 per week
- \$300 - \$399 per week
- \$400 - \$499 per week
- \$500 - \$649 per week
- \$650 - \$799 per week
- \$800 - \$999 per week
- \$1,000 - \$1,249 per week
- \$1,250 - \$1,499 per week
