

Supplementary Table SIV Reasons for refusal to participate in ancillary sub-studies.

Adjusted odds ratios for predictive variables and participants for refusal to provide biological samples because too much blood to be drawn.

Variables	Too much blood to be drawn	
	OR (95% CI)	P-value
Race		
White	1	
Black or African American	2.132 (1.161, 3.914)	0.015
Asian	2.332 (1.143, 4.757)	0.020
American Indian or Alaska Native	5.900 (1.111, 31.342)	0.037
Ethnic group		
Not Hispanic or Latino	1	0.014
Hispanic or Latino	0.270 (0.095, 0.770)	
BMI	0.936 (0.908, 0.965)	<0.001

Adjusted odds ratios for predictive variables and participants for refusal to provide biological samples because worried about the future use of biological specimens.

Variable	Worried about the future use of biological specimens*	
	OR (95% CI)	P-value
BMI	0.960 (0.924, 0.997)	0.033
