

Supplementary Figure S4. Publicly Available RNA-Seq Data of EWS-FLI1 Knockdown. **A,** Heatmap of $\text{Log}_2\text{FoldChange}$ in expression and bar graph of changes in FPKM levels of selected ATF4 target genes from publicly available RNA-seq data of FLI1 (EWS-FLI1) knockdown in two biological replicates of TC32 cells [17]. **B,** Heatmap of $\text{Log}_2\text{FoldChange}$ in expression and bar graph of changes in FPKM levels of selected ATF4 target genes after 96 hours of FLI1 (EWS-FLI1) knockdown in SKNMC Ewing sarcoma cells [8].
