

## Reviewer Report

**Title:** Vulcan: Improved long-read mapping and structural variant calling via dual-mode alignment

**Version:** Revision 1      **Date:** 8/2/2021

**Reviewer name:** Hasindu Gamaarachchi

### Reviewer Comments to Author:

The authors have done a fantastic job in addressing the issues and clarifying my doubts. Only a few very minor/typographical errors are present now and some of them that I found when quickly going through are as below:

1. Page 4: "CPU time was measured in CPU time for all programs" -> perhaps it meant to be "The time was measured in terms of CPU time for all programs"?
2. Fig 3 text is too small to see on the print. Please enlarge them to a size similar to Fig 2.
3. Supplementary: -MD flag is still missing I think.

The authors are requested to do another round of careful proof reading before publication.
