

Description of Additional Supplementary Files

File name: Supplementary Data 1.

Description: Geographic origin of *Plasmodium falciparum* Pfs47 sequences analyzed and Single Nucleotide Polymorphism (SNP) altern allele frequency.

File name: Supplementary Data 2.

Description: Fixation index (F_{ST}) of Pfs47 Single Nucleotide Polymorphisms between geographic regions.

File name: Supplementary Data 3.

Description: Source and ID of *Plasmodium falciparum* samples analyzed.
