

Figure S1. Transfection efficiency of miR-543 mimic and si-LATS1. miR-543 expression was determined using RT-qPCR after transfection of (A) miR-543 mimic or (B) miR-543 inhibitor. (C) LATS1 expression was measured using RT-qPCR after transfection of si-LATS1. All experiments were performed three times. *** $P < 0.001$, **** $P < 0.0001$ vs. corresponding NC. NC, negative control; miR, microRNA; siRNA, small interfering RNA; LATS1, Large tumor suppressor kinase 1.
