

## Reviewer Report

**Title: A scalable software solution for anonymizing high-dimensional biomedical data**

**Version: Revision 1**      **Date: 8/6/2021**

**Reviewer name: Abdul Majid**

### Reviewer Comments to Author:

Dear Authors,

The manuscript has significantly improved.

Meanwhile, it would be better to restructure the contents. For example, all figures at the end are not desirable, and are hard to understand.

Also, it would be better to discuss the details of high and low dimensional data.

Please modify the comprehensive figure to highlight the complete workflow of the approach with data.

A final version should depict the good structure of the paper that can be perceived easily by the readers.

Thanks
