Resident/Fellow	183	8%	8%	25	9%	9%	158	8%	8%
Military	26	1%	1%	3	1%	1%	23	1%	1%

ASPS Practice Demographic	Survey Population		Survey Responders		Survey non responders	
50% Reconstructive & 50% Cosmetic	487	22%	56	20%	431	23%
25% Reconstructive & 75% Cosmetic	390	18%	58	21%	332	17%
75% Reconstructive & 25% Cosmetic	641	29%	69	25%	572	30%
100% Cosmetic	370	17%	40	14%	330	17%
100% Reconstructive	297	14%	54	19%	243	13%

ASPS Gender	Survey Population		Survey Responders		Survey non responders	
Female	844	25%	136	32%	708	24%
Male	2521	75%	290	68%	2231	76%

<b>ASPS Years In Practice</b>	<b>Survey Population</b>		<b>Survey Responders</b>		<b>Survey non responders</b>	
Under 5	315	16%	154	36%	161	10%
5 - 9	318	16%	55	13%	263	17%
10 - 14	301	15%	37	9%	264	17%
15 - 19	308	15%	31	7%	277	17%
20 - 24	260	13%	53	12%	207	13%
25 and over	515	26%	100	23%	415	26%

After analyzing the characteristics of nonresponders, it is determined that the sample is representative of the survey population. Although our survey only has a 12.7% overall response rate, the characteristics of both groups are similar and the survey results are valid for ASPS members in general.
