Manuscript NO: NRR-D-20-00944

Title: Pentadecapeptide BPC 157 and the central nervous system

Reviewer's Name: Brijesh Kumar Singh

Reviewer's country: USA

COMMENTS TO AUTHORS

In the article titled "Pentadecapeptide BPC 157 and the central nervous system" author impressively compiled the information about BPC157 and broadly elaborated its positive impact on brain and spinal cord associated anomalies. Authors also focused on the stability of BPC157 and its therapeutic potential that improves behavioral deficits. This article requires minor revision-

1. Authors have used 'Pentadecapeptide BPC 157' at several places, 'BPC 157' should be good as short form.
2. Citations in between sentences create difficulties to understand what authors want to convey.

Altogether, after these minor corrections, manuscript would seem in good shape.
