42. Ko-lam W, Sandhu T, Paiboonworachat S, Pongchairerks P, Junrungsee S, Chotirosniramit A, et al: Metoclopramide, versus its combination with dexamethasone in the prevention of postoperative nausea and vomiting after laparoscopic cholecystectomy: a double-blind randomized controlled trial. *Journal of the Medical Association of Thailand* 2015; 98: 265-272
43. Koyuncu O, Leung S, You J, Oksar M, Turhanoglu S, Akkurt C, et al: The effect of ondansetron on analgesic efficacy of acetaminophen after hysterectomy: a randomized double blinded placebo controlled trial. *Journal of Clinical Anesthesia* 2017; 40: 78-83
44. Kranke P, Eberhart L, Motsch J, Chassard D, Wallenborn J, Diemunsch P, et al: I.V. APD421 (amisulpride) prevents postoperative nausea and vomiting: a randomized, double-blind, placebo-controlled, multicentre trial. *British Journal of Anaesthesia* 2013; 111: 938-945
45. Kranke P, Röhm KD, Diemunsch P, Gan TJ, Apfel CC, Eberhart L, et al: Intravenous buspirone for the prevention of postoperative nausea and vomiting. *European Journal of Clinical Pharmacology* 2012; 68: 1465-1472
46. Kurz A, Fleischmann E, Sessler DI, Buggy DJ, Apfel C, Akça O: Effects of supplemental oxygen and dexamethasone on surgical site infection: a factorial randomized trial. *British Journal of Anaesthesia* 2015; 115: 434-443
47. Lee WS, Lee KB, Lim S, Chang YG: Comparison of palonosetron, granisetron, and ramosetron for the prevention of postoperative nausea and vomiting after laparoscopic gynecologic surgery: a prospective randomized trial. *BMC Anesthesiology* 2015; 15: 121-121
48. Mathiesen O, Jørgensen DG, Hilsted KL, Trolle W, Stjernholm P, Christiansen H, et al: Pregabalin and dexamethasone improves post-operative pain treatment after tonsillectomy. *Acta Anaesthesiologica Scandinavica* 2011; 55: 297-305
49. Mathiesen O, Rasmussen ML, Dierking G, Lech K, Hilsted KL, Fomsgaard JS, et al: Pregabalin and dexamethasone in combination with paracetamol for postoperative pain control after abdominal hysterectomy. A randomized clinical trial. *Acta Anaesthesiologica Scandinavica* 2009; 53: 227-235

50. Murphy GS, Szokol JW, Avram MJ, Greenberg SB, Shear T, Vender JS, et al: The effect of single low-dose dexamethasone on blood glucose concentrations in the perioperative period: a randomized, placebo-controlled investigation in gynecologic surgical patients. *Anesthesia and Analgesia* 2014; 118: 1204-1212
51. NCT00888329: Aprepitant for Prevention of Postoperative Nausea and Vomiting in Elective Hysterectomy, [clinicaltrials.gov/ct2/show/NCT00888329](https://clinicaltrials.gov/ct2/show/NCT00888329), 2009
52. Nielsen RV, Siegel H, Fomsgaard JS, Andersen JD, Martusevicius R, Mathiesen O, et al: Preoperative dexamethasone reduces acute but not sustained pain after lumbar disk surgery: a randomized, blinded, placebo-controlled trial. *Pain* 2015; 156: 2538-2544
53. NKO101287: The purpose of this study is to determine the effectiveness of this medication in preventing nausea and vomiting in female patients at risk for post-operative nausea and vomiting (PONV), [www.gsk-studyregister.com/study?uniqueStudyId=NKO101287](http://www.gsk-studyregister.com/study?uniqueStudyId=NKO101287), 2018
54. NKT102245: The primary purpose of this study is to determine an effective dose of this NK-1 anti-emetic medication to prevent nausea and vomiting in females after surgery, [www.gsk-studyregister.com/study?uniqueStudyId=NKT102245](http://www.gsk-studyregister.com/study?uniqueStudyId=NKT102245), 2018
55. NKT102260: This study is looking at a range of doses of this NK-1 receptor antagonist drug, for both safety and effectiveness in prevention PONV, [www.gsk-studyregister.com/study?uniqueStudyId=NKT102260](http://www.gsk-studyregister.com/study?uniqueStudyId=NKT102260), 2018
56. NKT102552: This study is being conducted to see if adding GW679769 (casopitant) to ZOFTRAN will significantly decrease the number of patients who experience nausea and vomiting after surgery, [www.gsk-studyregister.com/study?uniqueStudyId=NKT102552](http://www.gsk-studyregister.com/study?uniqueStudyId=NKT102552), 2018
57. PALO-04-07: A Randomized, Double-blind, Multicenter, Parallel Group, Balanced, Stratified Phase 3 Study to Evaluate the Efficacy and the Safety of Single IV Doses of Palonosetron 0.025 mg, 0.050 mg, and 0.075 mg versus Placebo to Prevent Postoperative Nausea and Vomiting Following Elective Gynecologic or Breast Surgery, [www.clinicaltrialsregister.eu/ctr-search/search?query=2005-000298-23](http://www.clinicaltrialsregister.eu/ctr-search/search?query=2005-000298-23), 2005
58. Park SK, Cho EJ, Kang SH, Lee YJ, Kim DA: A randomized, double-blind study to evaluate the efficacy of ramosetron and palonosetron for prevention of postoperative nausea and vomiting after gynecological laparoscopic surgery. *Korean Journal of Anesthesiology* 2013; 64: 133-137

59. Rettori M, Feroci F, Borrelli A, Ottaviano A, Coppola A, Castagnoli A, et al: A single effective way to reduce post-thyroidectomy discomfort: a clinical trial. *Minerva Chirurgica* 2011; 66: 197-205
60. Ryoo SH, Yoo JH, Kim MG, Lee KH, Kim SI: The effect of combination treatment using palonosetron and dexamethasone for the prevention of postoperative nausea and vomiting versus dexamethasone alone in women receiving intravenous patient-controlled analgesia. *Korean Journal of Anesthesiology* 2015; 68: 267-273
61. Ryu JH, Chang JE, Kim HR, Hwang JW, Oh AY, Do SH: Ramosetron vs. ramosetron plus dexamethasone for the prevention of postoperative nausea and vomiting (PONV) after laparoscopic cholecystectomy: prospective, randomized, and double-blind study. *International Journal of Surgery* 2013; 11: 183-187
62. Sánchez-Rodríguez PE, Fuentes-Orozco C, González-Ojeda A: Effect of dexamethasone on postoperative symptoms in patients undergoing elective laparoscopic cholecystectomy: randomized clinical trial. *World Journal of Surgery* 2010; 34: 895-900
63. Segelman J, Pettersson H, Svensen C, Divander MB, Barenius B, Segelman J: Analgesic effect of a single dose of betamethasone after ambulatory knee arthroscopy: a randomized controlled trial. *Journal of Anesthesia* 2016; 30: 803-810
64. Singla NK, Singla SK, Chung F, Kutsogiannis DJ, Blackburn L, Lane SR, et al: Phase II study to evaluate the safety and efficacy of the oral neurokinin-1 receptor antagonist casopitant (GW679769) administered with ondansetron for the prevention of postoperative and postdischarge nausea and vomiting in high-risk patients. *Anesthesiology* 2010; 113: 74-82
65. Sinha AC, Singh PM, Williams NW, Ochroch EA, Goudra BG: Aprepitant's prophylactic efficacy in decreasing postoperative nausea and vomiting in morbidly obese patients undergoing bariatric surgery. *Obesity Surgery* 2014; 24: 225-231
66. Soga T, Kume K, Kakuta N, Hamaguchi E, Tsutsumi R, Kawanishi R, et al: Fosaprepitant versus ondansetron for the prevention of postoperative nausea and vomiting in patients who undergo gynecologic abdominal surgery with patient-controlled epidural analgesia: a prospective, randomized, double-blind study. *Journal of Anesthesia* 2015; 29: 696-701

67. Song JW, Shim JK, Choi SH, Soh S, Jang J, Kwak YL: Comparison of Ramosetron and Palonosetron for Preventing Nausea and Vomiting after Spinal Surgery: Association With ABCB1 Polymorphisms. *Journal of Neurosurgical Anesthesiology* 2017; 29: 406-414
68. Tarantino I, Warschkow R, Beutner U, Kolb W, Luthi A, Luthi C, Schmied BM, Clerici T: Efficacy of a single preoperative dexamethasone dose to prevent nausea and vomiting after thyroidectomy (the tPONV Study): a randomized, double-blind, placebo-controlled clinical trial. *Annals of surgery* 2015; 262: 934-940
69. Tolver MA, Strandfelt P, Bryld EB, Rosenberg J, Bisgaard T: Randomized clinical trial of dexamethasone versus placebo in laparoscopic inguinal hernia repair. *British Journal of Surgery* 2012; 99: 1374-1380
