

Supplementary Table 1. Correlation between the cortical surface area and the cortical thickness among patients with drug-naïve major depressive disorder (MDD) and healthy controls (HC)

Cortical region	R	p-value
MDD		
Left superior occipital gyrus	0.277	0.023*
HC		
Left superior occipital gyrus	-0.271	0.005*

p<0.05. *denotes significance
