

Figure S6. Cryo-EM analysis of AdeB-Et. (A) AdeB-Et-I cryo-EM results. (B) AdeB-Et-II cryo-EM results. (C) AdeB-Et-III cryo-EM results. Panels depict representative 2D classes (top left), GS-FSC resolution curve (top right), final cryo-EM map (bottom left) and representative density (bottom right) for each structure. Amino acids are represented as cyan sticks.
