

Supplementary Figure S4. Relationship between *ERBB2* copy number and pCR. **A**, Median HER2/CEP17 ratio for the overall population according to pCR results. P-value is from a Wilcoxon test. **B**, Median HER2/CEP17 ratio for the hormone receptor-positive and hormone receptor-negative subsets according to pCR results. P-value is from a Wilcoxon test. **C**, Median HER2/CEP17 ratio for each of the six core biopsy areas from each tumor and association with pCR. **A-C**, Red represents patients without pCR, and blue represents patients with pCR.
