

SDC_Fig. 1

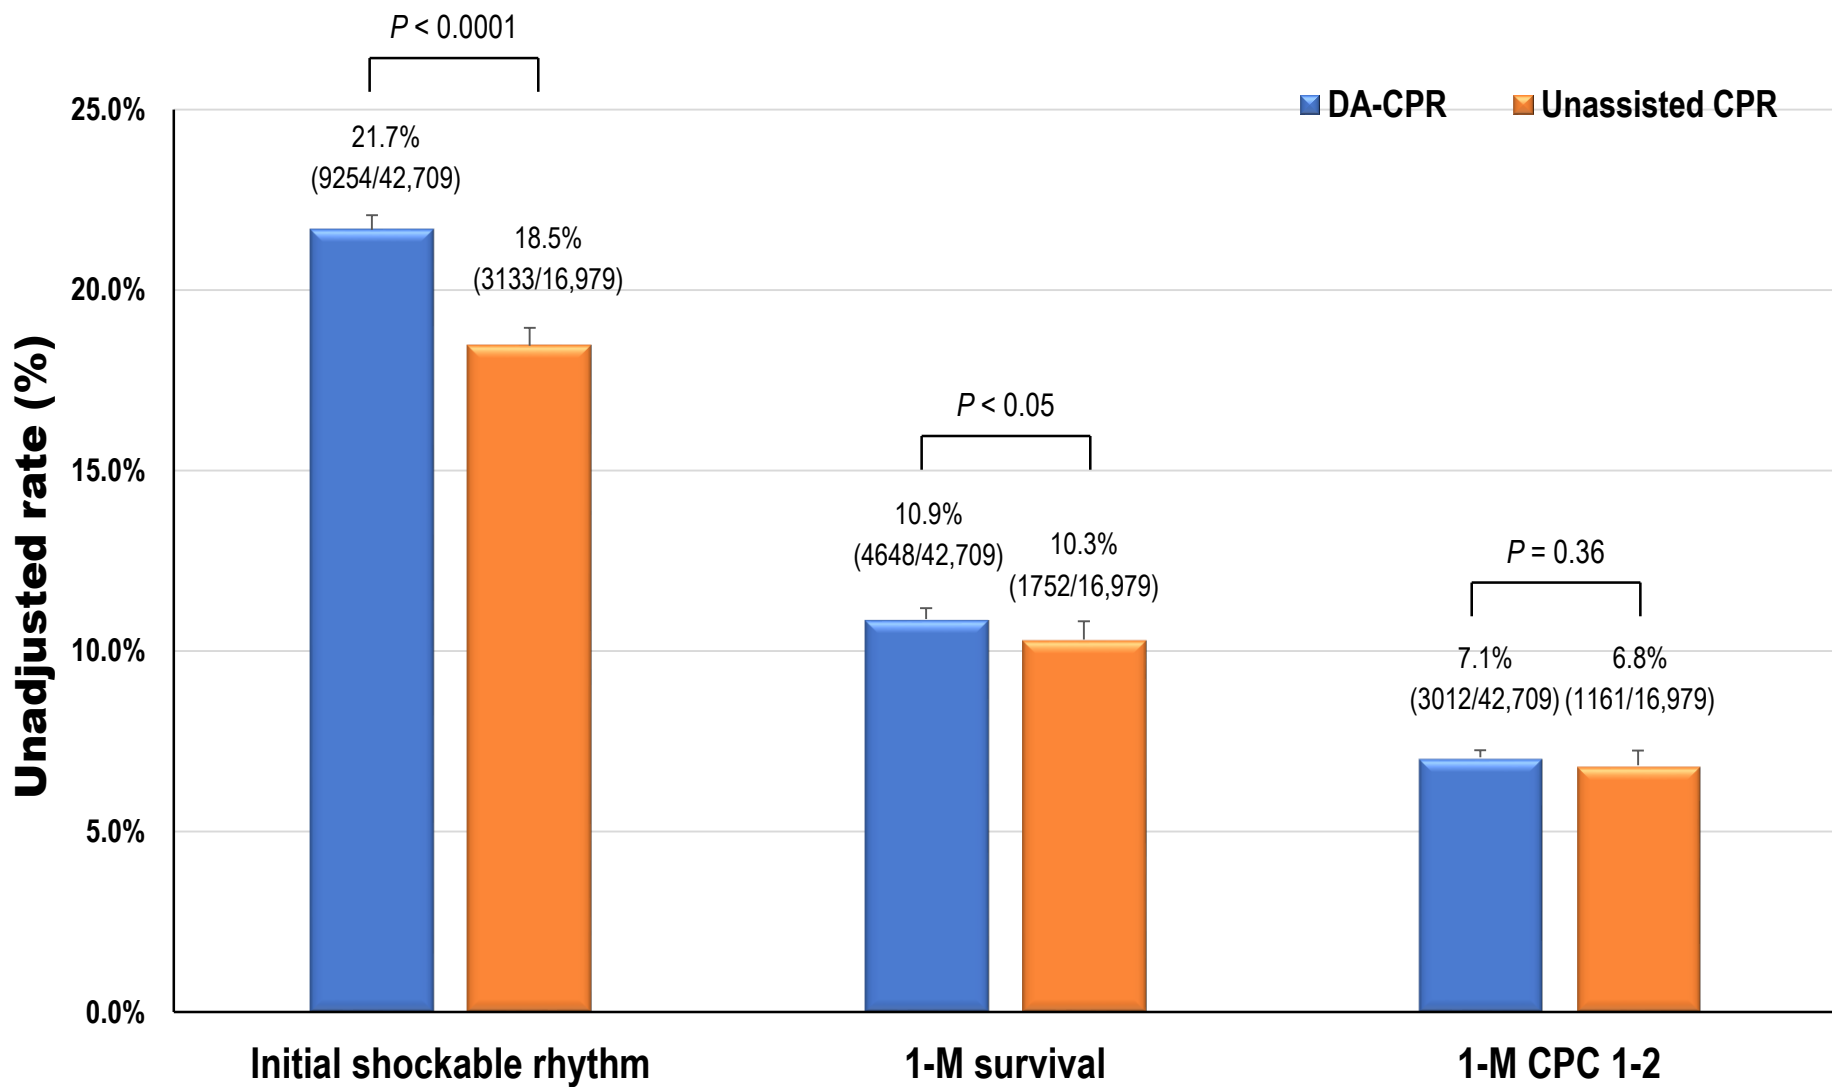

Figure 1. The incidence of initial shockable rhythm and unadjusted outcomes in the 59,688 unmatched patients
CPC, Cerebral Performance Category; CPR, cardiopulmonary resuscitation; DA, dispatcher-assisted.

SDC_Fig. 2

Outcomes	Adjusted OR (95% CI)	<i>P</i> Value
1-M survival	0.95 (0.89-1.02)	0.15
1-M CPC 1-2	0.91 (0.84-0.99)	<0.05

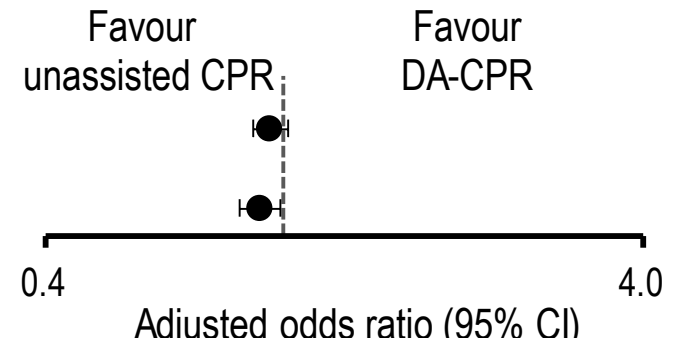

Figure 2. Adjusted odds ratios of DA-CPR for 1-month outcomes compared with unassisted CPR in the unmatched patients. CI, confidence interval; CPC, Cerebral Performance Category; CPR, cardiopulmonary resuscitation; DA, dispatcher-assisted; OR, odds ratio.
