Figure S-1	S-2
Tables S-1 and S-2	S-3

Figure S-1

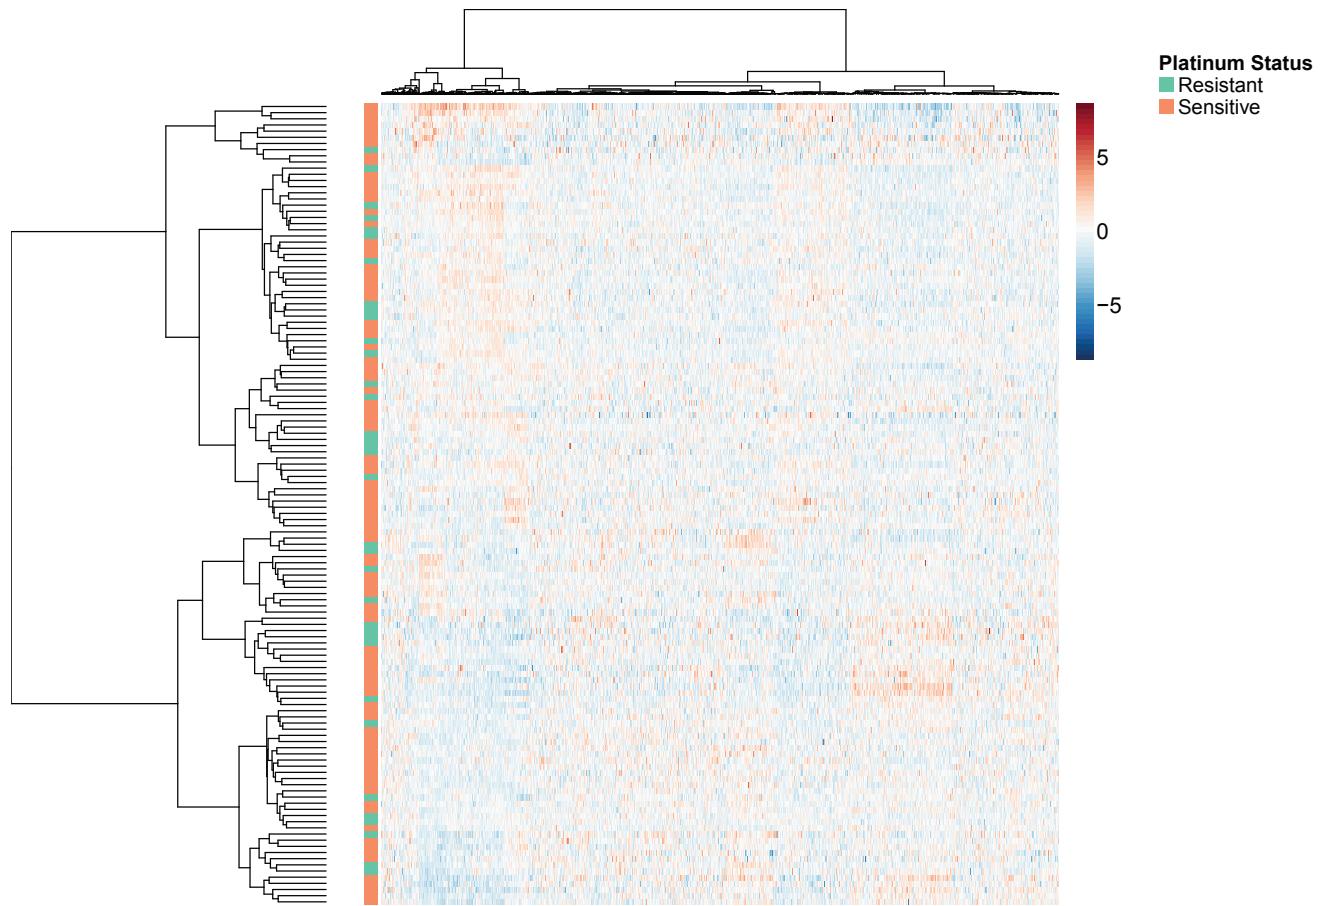

Figure S-1. Global proteomic profiles of ovarian serous carcinoma patients. This heatmap shows the log-transformed protein abundance. Each row indicates the proteomic profile of a patient, and each column represents the expression level of a protein. Although some patients with the same platinum response status had similar proteomic profiles, the global proteomic patterns did not predict platinum resistance.

Table S-1. Clinical Profiles of the Participating Ovarian Serous Carcinoma Patients

Patient Barcode	Platinum Free Interval (months)	Platinum Status	Anatomic Organ Subdivision	Chemotherapy	Days to Initial Pathologic Diagnosis	Histological Type	Informed Consent Verified	Pretreatment History	Race	Tumor Stage
