

Supplementary Method 1. Diagram representing the positioning of calvarial landmarks

Landmark #	Anatomical Description
1	Rhinion
2	Nasion
3	Bregma
4	Lambda
5	Most posterior point in midline on occipital
6	Junction between occipital and occipital condyle in midline
7	(L) Frontotemporal
8	(R) Frontotemporal
9	(L) Coronal
10	(R) Coronal
11	(L) Junction between interparietal and lambdoidal sutures
12	(R) Junction between interparietal and lambdoidal sutures
13	Anterior-most point along the left nasomaxillary suture
14	Anterior-most point along the right nasomaxillary suture
15	(R) superior-most point of the zygo-maxillary suture
16	(L) superior-most point of the zygo-maxillary suture
17	(R) Point of greatest concavity along the premaxillary suture
18	(L) Point of greatest concavity along the premaxillary suture
19	Internal prosthion
20	Superior nuchal line in midline
21	Anterior-most point of the presphenoid in midline
22	Spheno-occipital synchondrosis in midline
●	8 Semi-landmarks, equally spaced between rhinion and nasion
