

OMTN, Volume 27

Supplemental information

**Anti-*EFG1* 2'-OMethylRNA oligomer inhibits
Candida albicans filamentation and attenuates
the candidiasis in *Galleria mellonella***

Daniela Araújo, Dalila Mil-Homens, Mariana Henriques, and Sónia Silva

Supplemental Information

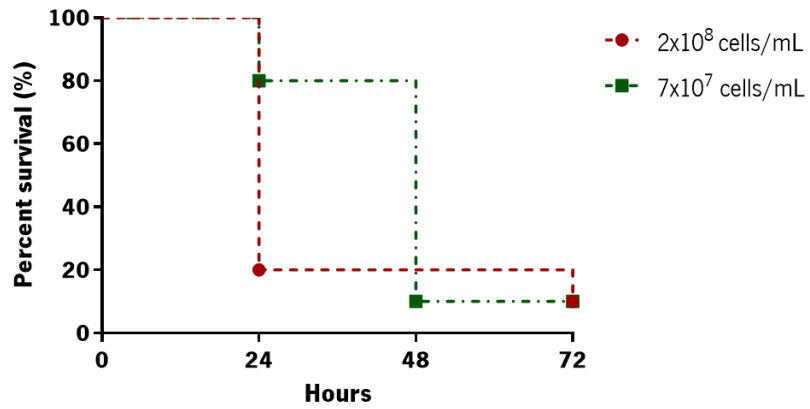

Figure S1. Study of *Galleria mellonella* lethality. For each control, 10 larvae were injected with two different concentrations of *Candida albicans* cells (2×10^8 and 7×10^7 cells mL⁻¹ cells mL⁻¹).
