59 **Figure 3—source data 3: Kinetic measurement of KSI s at 15°C with substrate 5(10)-estrene-3,17-dione.**

60 ^a (Engqvist, 2018)

61 ^b Reported assay temperatures are the average of at least three measurements per experiment.

62 ^c average ± standard deviation from 2–4 independent experiments with enzyme concentration varied by at least 2-fold.

63 Values measured with substrate concentrations from 9–600 μM.
