

Appendix Table 1: Relative rates (RR) of lung cancer incidence by categories of cumulative radon exposure (5-year lag) among male uranium miners in the Příbram region of the Czech Republic, 1977-1996

WLM Categories	Total lung cancer cases (n)	Relative Rate (RR)	95% CI	
0 - <10	112	1 (ref)		
10 - <50	227	1.58	1.20	2.06
50 - <100	139	1.50	1.11	2.02
100 - <150	117	1.71	1.25	2.36
150 - <200	93	3.30	2.29	4.74
200+	164	3.25	2.37	4.45

*All models are controlled for age and birth cohort WLM = Working Level Months

Appendix Table 2: Relative rates (RR) of extrathoracic cancer incidence by categories of cumulative radon exposure (5-year lag) among male uranium miners in the Příbram region of the Czech Republic, 1977-1996

WLM Categories	Total extrathoracic cancer cases (n)	Relative Rate (RR)	95% CI	
0 - <3	15	1 (ref)		
3 - <5	10	3.85	1.58	9.39
5 - <10	21	2.42	1.19	4.93
10 - <50	32	1.26	0.66	2.41
50 - <100	15	1.05	0.5	2.24
100+	26	1.3	0.64	2.65

*All models are controlled for age and birth cohort WLM = Working Level Months
