

Supplementary Figure 4

Original blots of Figure 2C

PM: kDa

WT: Wild-type (other wells loaded with AD samples)

P: PEG treatment

R: Resveratrol treatment

V: Viniferin treatment

Original blots of Figure 3B

AD: Alzheimer’s disease (other wells loaded with WT samples)

- PM: kDa
- WT: Wild-type (other wells loaded with AD samples)
- P: PEG treatment
- R: Resveratrol treatment
- V: Viniferin treatment

Original blots of Supplementary Figure 2B

PM: kDa

CT: positive control

P: PEG treatment

R: Resveratrol treatment

V: Viniferin treatment

Original blots of Supplementary Figure 2C

PM: kDa

CT: positive control

P: PEG treatment

R: Resveratrol treatment

V: Viniferin treatment
