

Supplementary Figure S1. Quantification of 2'-*O*-MOE gapmer using the SplintR qPCR assay. Amplification curve of a 2'-*O*-MOE gapmer serially diluted in water for a concentration range of 1 pM to 1 μ M. The concentration of the 2'-*O*-MOE gapmer is mentioned at the right of the amplification curve. The qPCR for each concentration was performed in technical triplicate, with each curve shown above. RFU represents relative fluorescence units.
